MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

THE HOTEL ST. GEORGE.

The decade of hotel building through which New York has just passed has only in a measure reacted upon Brooklyn. Not only is she behind New York in the proportionate number of her hostelries, but she really possesses a small number of such establishments for a city of her size. The multiplication of hotels in the bigger city has attracted a large transient trade from across the river, and has lessened the demand for first-class accommodations to such an extent that few cared to build.

It remained for Captain Tumbridge to give to Brooklyn the first of these modern buildings when he built the St. George twelve years ago. The hotel stands on the site of an old and celebrated inn which was known as the St. George Tavern, and whose fame is perpetuated in the name which Captain Tumbridge has bestowed upon his house. The growth of the St. George under Captain Tumbridge's management has been very extensive, as is attested by the various additions which have been made dur-

HOTEL ST. GEORGE EXTENSION.

Capt. Wm. Tumbridge, Owner. M. W. Morris, Architect.

ing the past ten years to the original house. Eight years ago an eight-story structure was added to the original building. This addition comprises every feature to meet the present demand for luxury and comfort. It is thoroughly modern in every way and contains, among many other advantages, an enormous dining-room whose floor space measures 12,000 square feet. To Mr. Tumbridge is due the credit for the introduction of the private bath in hotels, while the St. George was the first hotel in Greater New York to be lit throughout by electricity.

In order to bring the St. George up to a still higher standard of elegance and convenience, Captain Tumbridge is erecting an addition to his already enormous establishment. This new structure will stand by the side of the original building on Clark street, Brooklyn Heights.

When completed, Brooklyn will have, in the Hotel St. George, not only its most magnificent hostelry, but also its tallest building. The new buliding will tower three stories above any structure in the City of Churches, and will be the first of the so-called sky-scrapers to rear its head across the bridge. It will be an eleven-story, strictly fireproof, steel construction building, with a frontage of 48 feet.

As to the style of its architecture, it may be generally termed Italian Renaissance. The front will be done in Indiana limestone for two stories, with white brick and terra cotta trimmings above. This terra cotta has a very fine texture, and has a vitreous appearance, and when laid can hardly be distinguished from marble. The entire width of the new building on the ground floor will be devoted to a new corridor, which will form the entrance for the entire hotel. This corridor will be 48x100 feet, taking in the entire width of the new building. The ceiling of the corridor will be from 16 to 18 feet high, and the walls will be wainscoted in marble to a height of eight feet. Elaborate frescoes on canvas will occupy the space above the wainscoting. The floor will be mosaic, and the ceiling is to be richly coffered in natural wood. The corridor will be lighted in the daytime by a magnificent cylindrical ceiling of richly colored glass, 50x50 feet Electric lights will be placed outside of this so that the effect will be as gorgeous at night as in daylight. There is to be a gigantic fire-place in the eastern side of the rear end of the corridor. On each side of this there will be heavily upholstered seats on the principle of the ancient Greek exedra, and where the guests may sit and talk over the affairs of the day, and smoke in the light of the burning logs. This portion around the fire-place will be separated from the corridor proper by a line of four columns executed in the style of the rest of the interior, and the occupants of this delightful "ingle nook" will be undisturbed by the general business and traffic of the office.

The front of the corridor will be enclosed in glass so that a view of the entire office will be obtained from Clark street. Over the entrance, and, extending the full width of the building, will be an elliptical marquise of glass set in wrought iron, supported on brackets and reaching to the curb.

The present office and corridor of the hotel are to be done away with and the space thus acquired remodelled into several rooms which will open upon the new corridor. These will include a reading-room, a smoking and lounging-room, and a Turkish room, within which one can sit in the semi-gloom and watch the fire and the life in the corridor without one's self being observed. The new corridor will connect directly with the present dining-room and by stairs to the large banquet room. Bowling alleys and shuffle boards will be underneath the office. Light will be furnished to this part of the house by a system of prismatic lenses. These will receive light from a five-foot vault light at the curb, and will transmit it to every nook and corner of the basement. The completed house will probably have the largest amount of space devoted to office room of any hotel in the United States 4,800 square feet being used for this purpose.

In the new building the floors from the second to the eleventh will be laid out into sixty suites of apartments, with a private tiled bath included in each apartment. Every room in these suites will open to the outer air, with the exception of the bath rooms. These will be ventilated by a thorough system of air shafts. There will be an abundance of large airy closets.

The eleventh story will contain a sun parlor similar to the one in the Waldorf-Astoria. It will be open in summer, and enclosed in glass in winter. The twelfth story is to be a roof garden, and, on account of the height of the building, as compared with its neighbors, this promises to be a delightful place in summer, as it will afford an unobstructed view of the entire bay and a large part of New York and Brooklyn, and will receive whatever breezes may be coming from the bay.

The new addition will be 100x48 on the first, or office, floor, but above this the depth of the building will be 52 feet. This arrangement is being followed for the purpose of leaving a space between the new building and the others to serve as an air shaft, and as a result of this every room in the entire establishment will open directly on the air. The completed house will contain nine hundred rooms, including two hundred and sixty bath rooms. The new rooms will be finished and equipped on a scale consistent with the rest of the establishment. In addition to the sun parlor and roof garden there is to be a swimming pool.

Much thought is being given to the subject of the decoration of the great corridor by Capt. Tumbridge and his architect, and while no decision has yet been made, the present idea is to give the artist who will undertake this part of the work the history of Brooklyn, from which to choose his subjects, and present pictorially the principal events from Revolutionary times on the principle of the pictorial histories in the Boston Library. It is possible that these decorations will consist of a series of pictures representing the important naval engagements of this country. Capt. Tumbridge himself has been a sailor, having fought in the navy during the civil war, and, to those who know him, his selection of naval scenes would be singularly characteristic.

The decorations and furnishings will be on an equally lavish scale, and will put the St. George in the front rank of ultra-luxurious hotels in Greater New York. No expense is to be spared to place at the convenience of guests every luxury, as well as every comfort known to modern life. The exclusiveness of a private home, or the active life and gaiety of a large hotel are accessible to guests at their own pleasure. The one remaining feature to complete this elaborate and splendid establishment will be provided in the shape of a magnificent ball room, capable of accommodating 750 persons.

AN appropriate text for a discourse on the probable course of prices on the Stock Market would be the recent Atchison operating statement and the action of the Atchison junior securities on its publication. The statement showing, as it did, a large proportionate increase in operating cost, seemed to have surprised some people who had been thinking that all additional business a railroad received was profit. When emerging from the hands of a receiver, during whose administration all surplus earnings had been applied to improvements and the efficiency of the property built up, a railroad can for a little time make a great record for low operating cost. But railroading is nowadays a business that always requires expenditures, proportioned to its extent, for improvements, and this fact will assert itself some time or other, and have to be met to some extent out of earnings. Just now Northern Pacific is making the low record, but this is due to the building up of the plant by the late receivers and the provisions made in reorganization for carrying on the work. Owing to the necessities that always crop up and must be provided for, there is no doubt that Northern Pacific will in due course, like Atchison, not be able to present such favorable statements as it has done, and that the visions of large dividends on securities low in order of seniority will be dissolved by hard facts. It is not only in reorganized properties that increased cost of operation will appear. In times of adversity the managers of railroads generally do only necessary repairs and provide only imperative additions to rolling stock, expecting when good times come to be able to make good whatever may become deficient by the carrying out of this policy. For years past this system has kept the rail mills idle and kept down the price of rails, and it is only recently that the mills have become active. Much of the increased earnings of the railroads must go in the direction indicated and away from the stockholders, who allow themselves to become too sanguine of dividends through ignorance of the necessities of the properties they are interested in. This accounts for the disappointment displayed when the St. Paul directors failed to raise the dividend rate on their common stock, and the recent break in Atchison preferred when it was disclosed that dividends upon that security were as far away as ever; and will further account for disappointments yet to come.

THE demands of the United States for gold, at a time when it has more in sight than was ever known before, is disturbing the money-mind of Europe quite a little, and it is also helping to make rates higher, a condition that is usually accompanied by increased difficulty in obtaining accommodations. In spite of this, though, the security markets keep strong. French imports for the first eight months of the year amounted to 3,049,406,000 f., and for the same time last year to 2,556,478,000 f.; exports to 2,275,613,000 f., and for the corresponding period of 1897 to 2,546,421,000 f. The great German canal scheme mentioned last week will, it is estimated, involve an expenditure of about $90,000,000. The rise in wages already secured and the fears for general demands in the same direction, to which the Kaiser's Hanover address against strikes is supposed to have pointed, have formed the basis for an attack on industrial shares listed on the Berlin and other German bourses; and, while the tone is good for the time being, this matter must threaten the situation until satisfactorily disposed of. Austrian spinning mill owners have resolved to reduce production because exports are falling off. Other commercial conditions in Austria-Hungary are improving, but the political conditions are again threatening to make the situation unsatisfactory. The Rand continues to increase its production of gold; for August it was 376,911 ozs., and for the first eight months of the year, 2,697,917 ozs., an output that, if maintained for the balance of the year, will put South Africa at the head of the gold producing countries of the world. The production of the British dollar for use in the Far East explains somewhat the demand for silver which has been apparent all this year. It is coined at Bombay and circulated throughout the Straits Settlements, Siam and other Eastern territories. In the first named alone $15,782,000 were imported. It is reported that the terms of arbitration of the boundary dispute between Argentine and Chili can only result in giving the latter some thousands of square leagues of fertile land; in fact, that the whole agreement is one of concession to Chili. But this is thought much more advisable than war, which remained, or seemed to remain, the only alternative. The Brazilian budget for 1898-'9 contemplates a revenue of $341,164,000, and expenditures of $346,000,000, leaving a deficit of $4,836,000, which it is proposed to cover by a draft upon the savings bank deposits. The state of business in Australia is indicated to some extent by the banking averages for the June quarter, which reveal a stationary, if not retrogressive, condition of affairs. Deposits decreased £2,131,840 and advances £551,513. Coin and bullion decreased £971,294.

A MASS of official statistics, relating to prices of provisions and wages in India, for some years prior to and since the closing of the mints to the free coinage of silver in 1893, have been submitted to careful analysis by the London "Economist" and the results published in the number of that journal last to hand. The object of the inquiry was, of course, to determine if possible whether the position of the Indian laborer had been benefited or injured by the restriction of silver coinage. The investigation disclosed, first: That between 1887 and 1893 there was a diminution in the purchasing power of the rupee; or, in other words, there was a rise in the price of the articles of general consumption by the mass of the people. And a comparison between 1897 and 1893 shows not only a heavier, but a much more general decline. There seems from the figures no reason to doubt that to the native population the cost of living in India is now appreciably greater than it was ten years ago. Second, wages, 1897 compared with 1887, moved upward, but only slightly in comparison with the articles of daily need. The result is that the Indian laborer is not so well off as he was ten years ago, in that his earnings procure for him less of the necessaries of life now than they did then. It is not proved how much of this is consequence and how much coincidence of the closing of the mints. Crop failures, war and pestilence have influenced the movements of both the prices of provisions and of wages, though differently, but to what extent and in what direction it is not always possible to precisely determine. Still, it having been asserted that restriction of the currency has been favorable to the laborer, it ought to be noted that investigation of the facts and statistics goes to disprove that assertion and to suggest that the solution of the Indian currency problem lies in the direction of a compromise between gold and silver.

FOR some reasons we regret to see that renovating coat of paint now going upon the Registers building. We confess, the structure needs it, but so much more besides is needed that there is a possibility that when the exterior is sophisticated with white lead and linseed oil the public will lose sight of the ramshackle condition of the antequated and dangerous structure in which the most valuable set of records in the country are housed. True, paint is a highly inflamable substance, and when substantially covered with it the Registers office will be a degree or two more combustible than before, but, unfortunately, the first impression that the popular eye receives from paint is not one of danger. Rather, it suggests newness and a condition of high order and serviceableness. None of these ideas is at all compatible with the actual state of the Registers office, and so, in a way, when the painters have finished their job, the building will not point its own moral, as it has so eloquently for some years past, but will need more commentary from the Press and Public than ever. The difficulty might be overcome by placarding the building with signs such as these: "This building is one of the most dangerous down town." "Occupied by the city at a criminal risk." "Condemned by every Register, by all lawyers and citizens who frequent it." "Remember the Maine." Register Fromme, we are afraid, is too strict and decorous an official to permit the realization of this suggestion. Of course, as the city does not supply him with proper quarters, it is right that he should keep those that are provided for him in the best condition possible, but it is passing disgraceful that the real estate records of New York are kept in so great jeopardy, and this last coat of paint merely emphasizes the fact anew. Evidently real estate interests don't count for much in a city which derives the greater part of its income from them.

RENTS IN BROADWAY BETWEEN MURRAY AND 14TH STS.

Last January, toward the close of the renting season for stores and lofts, the Record and Guide published a careful inquiry into the effect on Broadway, between Murray and 14th streets, of the building movement which has largely reconstructed this part of the thoroughfare during the past eight years. It was found that the supply of store and loft space had increased 40% in that period, while the general business of the city had hardly recovered from the panic of 1893, with the result that in the years following the panic the rental value of improved mercantile housing had declined fully 20%. Despite this cheapening of rents many vacancies existed in the new as well as in the remodelled old buildings, although the stores in both improved and unimproved buildings were generally occupied. The upper lofts of antiquated structures were practically deserted, and their rental value greatly reduced by the competition of modern elevator buildings.

Since January the local and general business situation, whether gauged by the exports of the port of New York, the activity in Wall street, bank clearings, the earnings of railways, the production of pig iron, or any of the accepted barometers of trade, has undergone a marked improvement. The inference is natural that the wholesale business of New York is increasing, although the movement may not as yet have gathered much headway. This inference is supported by the fact that, according to the signatures deposited with the Merchants' Association for the purpose of securing rebates on railroad fares, the number of out-of-town merchants who visited New York in August and September has been more than 30% greater than that for the corresponding months last year.

Broadway, between Murray and 14th streets, is the chief seat of many important branches of the wholesale business. It is, therefore, pertinent to inquire whether the renting market for stores and lofts in that part of the thoroughfare has experienced any improvement since the beginning of the year. The renting season for this class of housing, indeed, does not close before February 1, but the season is sufficiently far advanced to have developed a general tendency. It is found that the new buildings have been filling up during the spring and summer, and that the process is still going on. For example, Weil & Mayer's three great buildings on the east side of Broadway, between Prince and East Houston streets, which brought 33 lofts, each 50x200 ft., on the market, and which were not quite finished at the beginning of February, are almost fully occupied, one tenant alone having a lease of 40,000 square feet for five years. Speaking generally, it may be said that there are comparatively few vacancies left in the new buildings in the wholesale section of Broadway, which is being considered. Many of the tenants of the new buildings have come from the antiquated structures in the very same section; the immigration from the side streets has also been large. But it is not apparant that any new business houses have come into existence during the past seven months.

The filling up of the new buildings at the expense of the old is accounted for by cheap rents and improved facilities. In fact, the cheapening of rents in modern buildings has reached a point which practically destroys the rental value of unimproved lofts. At the same time, some compensation is found for the loss in rent per square foot by the fact that, with low rents, merchants begin to occupy additional floor space—to seek more commodious quarters. Partly owing to this compensatory action and partly to the growing buoyancy of wholesale trade, rents have ceased to fall, remaining where they stood at the beginning of the year, so that the schedule printed then holds good for the present time. For the convenience of readers the statemnet made in our issue of January 29th, in the article previously referred to regarding Broadway rents is here reproduced. It is: "The mobility of the trades located in Broadway, between Murray and 14th streets, increases the effect of the multiplication of new buildings in reducing rents. The average rent per square foot for new lofts between Canal and 14th streets is 30 cts., while old lofts are sacrificed. New offices bring $1.50 per square foot; offices in altered buildings, $1.10. In three years there has been a depreciation in rents in this district of 20 per cent. Stores 25x100, between Canal and Prince, which a few years ago commanded $4,000, now rent for $3,000 and $2,700. A store and loft building, 25x200, between Spring and Prince streets, which five years ago brought $16,000, is to-day one of those old properties fortunate enough to be occupied with the exception of only one loft, namely, the first. To-day the rented portions bring $9,800, while the vacant loft is to be had at $1,800." Not only have rents ceased to fall, but in leases now being made rents are frequently graded so that in the last year of five-year terms the rent shall be about on the plane which obtained before the panic. Such graded leases were not thought of this spring, nor for several years past. On the whole, the renting market for mercantile housing in the wholesale section of Broadway has assumed an encouraging aspect—vacancies are fewer and rents are taking an upward turn—although the improvement is, of course, confined to modern buildings.

The importance of the compensatory action of falling rents noted in the foregoing is perhaps not generally appreciated. Between Murray and, say, Walker street, where rents are comparatively high, business is conducted in restricted quarters—in offices and salesrooms. But between Walker and 14th streets the lofts along Broadway have, under the influence of the low rents that have obtained since the panic been largely given over to light manufacturing, as of neckwear, shirts, skirts, wrappers, cloaks, suspenders, fur garments, etc., a movement which has been encouraged by the circumstance that a considerable number of the premises in this section extend from Broadway to the parallel street in the rear. Concerns which before occupied merely a salesroom in Broadway, maintaining a factory elsewhere, have found it economical to bring the latter under the same roof with the Broadway salesroom, where one supervision will suffice for both, and where the proprietor is able to give undivided attention to productive business without having to bother about repairs to the steam heating, the electric light, the power and other plants that constantly call for unexpected outlays. A manufacturing firm that also sells directly to consumers occupies the southwest corner of 12th street, a 12-story building, in which they make and sell cloaks and suits. The building was erected for the firm by the Weld estate three years ago, and is held on a long lease with power of renewal. Another manufacturer of and dealer in cloaks has the 11-story building at No. 830 Broadway. A firm manufacturing underwear have only recently taken possession of 40,000 square feet of loft space at Nos. 580 and 582 Broadway.

ABANDONED ELM STREET.

A deputation consisting of Leo Schlesinger, Hawley & Hoops, Wm. M. Ryan and M. Hanlon, representing property owners on Elm street and contractors and others engaged in carrying out contracts for building, etc., there, and a Mr. Rohl, representing the owners of the Puck building, waited upon Mayor Van Wyck to call his attention to the disgraceful condition of Elm street since the work of regulating the street was abandoned months ago, and to ask his help in getting the street put into shape, if not completely, at least into such shape as would permit passage along it of vehicles, which is not now possible.

Mr. Schlesinger, who was the chief spokesman of the deputation, pointed out the injury that was being done to all interests along Elm street by the delay in completing the work of grading and paving the street. He submitted three photographs, which clearly proved not only the incomplete state of the work, but the generally obstructed condition of the thoroughfare, and which are herewith reproduced.

The Mayor interrupted Mr. Schlesinger to say that he had already given his attention to the matter, and nothing that could be said would make him more anxious to see the work carried out than he was, but nothing could be done this year. It might be possible, when the new budget was arranged, which would be by November 1st next, to anticipate the '99 expenditures in some way, but of this he could not be sure. There were legal and other obstacles in the way of completing Elm street which would have to be removed before anything could be done, and meantime there was no money with which to do the work. Nothing, he repeated, could be done until the new budget was decided upon.

The visit to the Mayor on Wednesday was not altogether without effect, because yesterday a force of men from the Department of Highways appeared on the ground with a dozen carts and began moving the 15 feet mounds of earth which are indicated in the view of Elm street looking north from Houston. This is not much, but is something to be thankful for.

E. ROBINSON & CO.'S NEW ATLAS.

The recent development of the last four wards of Brooklyn, 29th, 30th, 31st and 32d, causing the breaking up of farms and the laying out of building estates, followed by the distribution of the land in lots and plots to builders and investors, has made an authoritative map of that section a positive necessity. This want has been most admirably supplied by the enterprising map publishers, E. Robinson & Co., who have just issued an excellent atlas of the wards in question.

As is well known, these wards, until their absorption into the City of Brooklyn, comprised the towns of Flatbush, New Utrecht, Gravesend and Flatlands in Kings County, and in preparing this atlas the data relating to the old towns' boundaries, farm lines, etc., are preserved and presented with the new layout and all

other information which it is necessary to possess to locate any given lot and appreciate its surroundings and auxiliary features. The atlas comprises 34 plates, accompanied by a general outline and index map. The latter is particularly convenient, in that the section is for the first time brought into one map and the work of inquiry thereby lessened and made easier and more convenient.

The thoroughness of compilation of this atlas may be shown by stating some of its chief features. By reference to its plates, anyone can readily find out farm lines and names of owners generally. All subdivisions, date of filing and number filed under in Register's office. In the subdivided sections there are in addition names of subdivisions, block lines; dimensions of block where recorded; names and widths of streets; whether streets are open or not; water pipes with size and sewers where they exist; locations of hydrants; whether buildings erected are stone, brick or frame; where electric and steam railroads run; data relating to assessment-subdivisions old and new, ward lines, county lines, and much other not merely useful, but absolutely necessary information to everyone interested in realty in the four wards presented.

The atlas is strongly bound in canvas, the maps muslin backed and the work in other respects, in every way, up to date and of good quality. The atlas complete in all details for use is sold at $18.00 and $25.00, according to finish. The office of E. Robinson & Co. is Room 614, No. 35 and 37 Nassau street, N. Y. city.

The Building Trades

Building Material Market.

The market in general for the past week has been seasonably active. Prices are advancing or holding firm at last week's quotations. The various features are the following:

BRICK.—Seventy-four barges of Hudson Rivers came in this week and were sold on arrival. Specials are bringing $6.00; Common are selling at $5.50@5.87½, and Pales at $3.75. There is a good demand, and although the fine weather has favored manufacturing, it is greatly restricted by the shortage in hands. New Jersey Common are selling at $5.75; Light hard are bringing $4.50 and Pales are going at $4.00. The supply is less than the demand owing to the shortage of hands. An advance in prices of brick in general is expected, and many dealers are holding stock for a substantial rise and are likely to get it, especially as the season is getting short.

CEMENT.—There is no imported Portland to be had at any price, and dealers are turning away orders. The mills are working to their fullest capacity, but it will probably take until the first of the year to fill orders now standing. Domestic Portland is at an absolute standstill, and the conditions are the same as prevail in imported. Rosendale is firm at last week's quotations. The demand is good and supply equal. There is a stronger expectancy of an advance in prices owing to the lack of Portland.

GLASS.—Prices remain firm at last week's quotations. The demand is good and the supply adequate.

LEAD.—Prices same as last week. Trade is seasonably good and is steady in both small and large lots. There is little likelihood of a change in prices for some little time.

LATH.—The last cargo sold for $1.65, and there are none in the market. The demand is strong and dealers are asking $1.75 to arrive and will probably get it. There are not over 3,000,000 on the way.

LIME.—The prices for Rockland are unchanged. Between 4 and 5 cargoes came in this week and were all sold. There is none in the market and little on the way. The demand continues good. The conditions in State and Jointa are about the same as last week, only a small proportion is coming to the New York market and the supply is behind the demand.

LUMBER.—The demand for yellow pine is light and prices are correspondingly low. There is at present a great inquiry for business that will probably materialize in the early winter and spring. Prices are as follows: In building lengths of 30 feet and under 12 inch are $23.00, and 14 inch $24.00 per 1,000 ft. No. 1 yellow pine flooring is selling at $21.00, and No. 2 at $19.00. West Virginia spruce is selling $14.50 for base 20 feet and under, with an advance extra of 50c. per 2 feet over 20.

NAILS.—Although the local and eastern demand is quiet, the western inquiry continues good. Prices remain firm at last week's quotations and there are stronger possibilities of a 5c. advance on wire nails by the middle of next month.

NAVAL STORES.—In spirits of turpentine prices have declined. Inquiry is very moderate and only for small lots. The market closed dull at 30½c. for regulars and 31 for machines. Tar is firm. Supply light and inquiry light, with little subsequent business. Prices unchanged. Pitch was dull and steady at last week's quotation.

OIL.—The supplies of dealers having run low, they have been buying extensively. This has put up prices and the advance has stimulated business still further, as many dealers are buying before prices reach a still higher point, which is anticipated. The general feeling is stronger and the seed market is holding firm with a slight advance. Prices as follows: 5 barrel lots and over, 35c. for raw and 37c. for boiled. In less than 5 barrel lots, 36c. for raw and 38c. for boiled. Calcutta oil is selling at 54c. per gallon.

The firm of William Hall's Sons announce that they have concluded to retire from business on May 1st next, and are prepared to dispose of their premises and plant at the foot of 106th street. A description of the property offered, which includes a large parcel of land with dock front, will be found in our advertising pages, and to it those who are interested in this important offer or are curious as to what it embraces are referred. The retirement of a firm of such importance calls for more than mere mention, and a few particulars relating to it are therefore given. It was founded 34 years ago by William Hall, who, after 17 years of successful work, retired in favor of his sons, by whom the business was largely extended until it became one of the largest trim establishments east of Chicago. The average annual turnover since the foundation of the firm was about $700,000. The gentlemen who compose the firm to-day, Thomas R. A. Hall, and Wm. H. Hall, are to be congratulated on the fact that their retirement is only due to a desire to enjoy the substantial results of their business success, free from the restrictions and burdens that active commercial life entails.

TRADE NOTES.

A CHANGE OF NAME.

The well-known steam heat contracting concern, Bonner & Van Court Co., announce that on the 20th ult. this company became "Van Court Company," under which name business will be conducted as formerly, at No. 442 West 42d street. Bonner & Van Court Co. was established many years ago, and the experience and ability in executing contracts cheaply, expeditiously and satisfactorily are retained in the new organization.

ELECTRICAL REPAIRS BY YEARLY CONTRACTS.

The Maintenance Company of No. 220 Broadway are operating what is claimed to be the only practicable system of guaranteeing electrical machinery from loss by accident. Their yearly contracts for maintenance are guaranteed by the deposit of a trust fund with the Colonial Trust Co. Some advantages of such contracts are: (1) Limit of owners' liability to a fixed sum per annum; (2) guarantee of expert supervision at regular intervals; (3) educated employees in charge of electrical machinery; (3) assurance of the quickest possible system of repairs and reducing to a minimum loss from non-operation; (4) more essential than fire or accident insurance; (5) more valuable than the guarantee of manufacturer of machine which requires proof of original defects in manufacture; (6) avoidance of experiment in irresponsible repair shops; (7) provision against serious accidents to machines that have run a long time without repair. Send for terms and descriptive circulars.

ARTIFICIAL STONEWORK.

George Schillinger, the long established and successful contractor for artificial stone work, has lately completed several important contracts, which include the Newburgh Armory, where 12,000 square feet were laid, for Contractor J. F. Johnson and the Wakefield Public School for Contractors Ch. Nally & Co. Mr. Schillinger is doing a stable at No. 114 East 124th street for Contractor Johnson, and will do all the work in his line on the new Rivington Street Public Bath, for which Mr. Johnson is the general contractor. Mr. Schillinger makes a specialty of laying sidewalks, and he will gladly estimate for architects, builders and owners. His office is in No. 1666 First avenue.

PAINTING TO PREVENT CORROSION.

Edward Smith & Co., the well-known varnish makers and color grinders, of No. 45 Broadway, have recently issued a valuable book, from the pen of A. H. Sabin, M. S., entitled "Paintings to Prevent Corrosion." The work is a serious attempt to deal with an important subject, and before publication the manuscript was, we understand, submitted to the criticism of numerous eminent engineers. It is not mere advertising, but a scientific treatment

of the subject. It contains a great deal that is not generally known, but which should be known by every architect, builder, and real estate owner. The book deserves to be read carefully—it is one of the best things extant. If the advice it contains is followed much of the unscientific treatment that metal receives with the idea of "protecting" it will be tolerated no longer. The edition of the book is limited, but we believe it will be sent by the publishers to really interested persons upon application.

The Real Estate Market

Real Estate Market.

The week's private sales were confined to dwellings, vacant lots and flats, the relative importance of the business in each class being indicated by the order given. Many of the dwellings were of a high grade, and at least one cost over $100,000, although the price of none for which the consideration was published exceeded $85,000. The purchase of residential property, which has for some time been the feature of the market, will probably continue to maintain its prominence for several weeks to come. During the past two years the tendency of the season for the renting and selling of dwellings and apartments to extend beyond October 1, has become very marked, and the present week has shown no abatement either in the renting or selling of this class of housing, due allowance being made for the Jewish holiday on Monday. But although both the sales and renting markets for dwellings and apartments is fairly active, it must not be inferred that the activity comprises each and every residential locality in the whole of Manhattan. Certain sections that have been popular are losing their attractions owing to the far-reaching changes in surface transportation that are in progress, while other sections, particularly in the central part of the island, are recovering prestige. For example, private houses in certain restricted streets between 2d and 3d avenues, above 59th street, were some years ago in very good demand. But the opening of the Lexington avenue cable and the 2d avenue trolley has robbed 3d avenue of its pre-eminence as the one great thoroughfare on the east side. With superior surface transportation on Madison and Lexington avenues, substantial families refuse to remain east of 2d avenue, and can with difficulty be induced to stay east of Lexington. There has been little buying for investment during the week. On the other hand, the renting market for mercantile property has been normal. Out-of-town houses are looking for salesrooms and offices, and local concerns are enlarging their quarters. Several well-known brokers report inquiries from Western concerns for factory sites. An investment purchase on 125th street recorded below is not without interest. The total number of transactions given below is 36, with considerations given in 12 amounting to 657.50; corresponding figures for last week were 48, 13 and $560,300, respectively.

Sales were held in the auction room on two days only of this week, namely, Tuesday and Wednesday. The offerings were unimportant, and, with one exception, went to the plaintiff, or parties in interest. The 2½-story brick dwelling, No. 44 Leroy street, put up at voluntary sale by D. Phoenix Ingraham & Co., was bid in at $4,800. The plot, 200x100.10, with two 1-story frame dwellings, on the northwest corner of 97th street and 4th avenue, James L. Wells, auctioneer, and No. 1868 Park avenue, 3-story brick tenement, Wm. Kennelly, auctioneer, were withdrawn, as was also No. 469 Manhattan avenue, 3-story brick dwelling, Richard V. Harnett & Co., auctioneers, the only offering scheduled for Thursday. The sale of the plot on the southeast corner of Valentine avenue and Clark street, with a 2-story frame dwelling, was adjourned until Oct. 27, James L. Wells, auctioneer. A number of announcements of voluntary sales promise a better market in the coming week, and indicate the opening up of the busy season.

The auction sale of 100 lots and two fine residences, located on 169th, 170th, 171st and 172d streets, Morris, Teller, College and Findlay avenues, which is scheduled for 1 o'clock to-day, as will be seen by the announcement in our business pages, will be held in a large tent on the grounds, adjoining Claremont Park, and should attract a large attendance. The lots and houses lie four blocks west of the 169th street elevated station, and are reached by the Second and Third avenue lines on one 5-cent fare from City Hall or the Battery. The property will be restricted, and the neighborhood is entirely built up. Seventy-five per cent. of the purchase money may remain on mortgage at 5 per cent. interest, or monthly payments will be accepted. John S. Mapes is the auctioneer, and his office is at No. 55 Liberty street.

James L. Wells will sell in the Broadway auction room, on Tuesday next, 49 lots located on and near 149th street, Union avenue and Southern Boulevard, by direction of the executors of the estate of John McConvill. Sixty per cent. of the purchase money may remain on mortgage at 5 per cent. interest. Particulars will be found in our advertising pages, and maps, etc., can be had of the auctioneer at No. 141 Broadway.

Bryan L. Kennelly & Co. will sell at auction, Wednesday, Oct. 5, at No. 111 Broadway, by direction of the trustee of Chas. L. Fleming, the following properties: No. 841 St. Nicholas avenue, northwest corner of 152d street, a 3½-story basement and cellar brick and brownstone dwelling on lot 20x100.11x irregular; Nos. 843, 845 and 847 St. Nicholas avenue, adjoining, three 3-story basement and cellar brick and brownstone dwellings; No. 861 St. Nicholas avenue, northwest corner of 153d street, a plot of seven lots, with large 3-story brick mansion; and No. 503 Canal street, northeast corner of Renwick street, a well-rented 4-story brick building, with store. For particulars, see our advertising columns. Seventy per cent. of the purchase money may remain on mortgage for 3 or 5 years at 5 per cent. interest. Maps and information wil be furnished at the offices of William Clarke Rae, attorney for the estate, No. 99 Nassau street, and the auctioneer, No. 66 Liberty street.

Richard V. Harnett & Co. announce in our business pages the auction sale of five good lots on the corner of Kingsbridge road and Hawthorne street, and the desirable parcel, the 4-story and basement brick and brownstone dwelling, No. 31 West 36th street. The sale will take place on Thursday next, 6th inst., and is by order of the executors of the estate of Charles B. Fosdick, for whom Sullivan & Cromwell, Nos. 45 and 47 Wall street, are the attorneys. The auctioneers will supply maps, etc., at Nos. 71 and 73 Liberty street.

REAL ESTATE NOTES

Ashforth & Co. were the brokers in the sale of No. 138 West 48th street, mentioned in our last issue.

It is reported that Dry Dock, East Broadway and Battery, the "Huckleberry," and the Forty-second street, Manhattanville and St. Nicholas avenue surface roads are to be consolidated with the Third avenue railroad, which already controls them.

Pay your taxes Monday and get the fullest possible rebate, interest for 58 days at the rate of 6 per cent. per annum. Manhattan taxes are payable at No. 57 Chambers street, those of The Bronx at 176th street and Third avenue.

Since the publication of the article on rents in upper Third avenue, which appeared in the Record and Guide three weeks ago, a row of four new 4-story flats, erected by the builders, Streifer & Sons, has been opened. The stores, 12x47, are occupied, except one, at a rental of $30 a month, each, until January, thereafter, $35 a month. Of the 28 flats, 9 are rented, corner flats bringing $21 to $25, and inside flats $19 to $21. The flats have steam heat and hot water.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantor, they mean as follows:

1st Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation, made of them by the Department of Public Works.

MORTGAGES.

Next to each mortgage is listed as follows: The first date is that of the mortgage, the next that when interest is due, then the rate of the mortgage, the time for which it was given and the amount. The several dates used as headings are the date when the mortgage was handed in to the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these columns the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (–) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and* satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name in the list of the owner, art stands for architect, m for mason, c for carpenter and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In the lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (i) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. OCTOBER 8, 1898. 1,595

NOTHING has arisen in the past week to disturb confidence in a prosperous business future. We are approaching the season when activity in many directions has of necessity to be curtailed, and it may later appear to some that our present optimism was misplaced. If it should, they will only have to discover a contrast with previous similar seasons to see that they are wrong. The coming elections may impede for a moment the progress that is being made, but that will be due, we think, only to the distraction they will give to men's minds. So far as they influence currency and business conditions, the results are more likely to confirm the policy that has made commercial and industrial improvement possible in the past two years than to create danger to either. In Wall Street there is considerable activity, but it is very speculative indeed. Cautious people keep away when quotations fluctuate as widely as some have recently done, because they suspect, with ample justification from precedents, manipulation that makes ordinary calculations useless. The course of prices is justified by the immediate situation, as it relates to corporate securities, the extent of the recent advance being borne in mind.

FOR some time past the speculation in industrial shares in Berlin has threatened trouble, and, according to late cable dispatches, the trouble has come and is approaching the acute stage. Money is becoming scarcer at that point, and foreign financial centres are discriminating against German bills. There is a general tendency of money to tighten and a consequent nervousness in speculation on the various European stock exchanges or bourses. Various reasons are assigned for this: The declines in Americans, the Fashoda affair, the Chinese difficulty, etc., but it is a natural result of a protracted speculation and the growth of the commercial demand for funds. The failing supply of cheap money has recently, also, had a limiting effect upon the new industrial enterprises put upon the London market. Activity in this line continued with but little interruption throughout the current year until shortly after the end of July, since when it has been very small indeed. The total amount offered for public subscription during last quarter was however, considerably larger than in the corresponding period of 1897, as it included several Government, corporation and railway issues of large amount, and though the three months' aggregate is more than £10,000,000 below that for the previous three months, it exceeds the sum reached in the third quarter of the year for a long period, with the single exception of 1896—that year having been exceptionally productive in new capital issues. The amount is £37,705,000, comparing with £31,874,000 in 1897, and £41,287,000 in 1896. For the nine months of the current year the total reached no less than £123,916,000, being £15,780,000 more than the aggregate for the same period last year, and exceeding the total for the record year of 1896 by £3,944,000. Recent calculations put the French wheat crop at a figure equal to estimated consumption. Among the reports that tend to make improbable any rupture between France and Germany, is one that large Parisian institutions have lately been investing their surpluses for which they could find no use at home, in the German market, where a growing industrial demand gave them profitable employment. If this is true, it may be taken for granted that the political situation was carefully weighed before the money was transferred. Some disappointment is expressed at Vienna that the foreign demand does not absorb the results of the good harvest and so bring needed gold into the country.

AMERICAN competition in iron and steel continues a lively subject for discussion abroad, and in reverting to the matter recently, one of the English financial journals claimed that the British limit of production had been reached, and that it was the growth of the demand of the world that was met of late by supplies from America. This is an original and interesting view, and the conclusions regarding future trade made therefrom are interesting. The paper in question says: "During the past ten years the production of pig-iron in this country has been comparatively stationary, never exceeding seven to nine million tons during the periods of greatest activity, whereas in the United States during the same time the production fluctuated between 3,000,000 tons in 1879, and 10,000,000 tons in 1897, and today the production is at the rate of about 11,000,000 tons per annum. It is manifest, therefore, that it would have been very difficult to supply the growing wants of the world unless the United States had entered the field in the way she has done. It may be that in future we may have to take the second, instead of the first place, in the iron and steel trade of the world; but if, as is just possible, the expansion of trade continues in the same, or even a larger ratio, than during the past 20 or 30 years, we may before long find the large production of the United States insufficient to meet all the requirements of the world. Taking the subjoined figures as the production of the world, during the following years, we may fairly estimate that the requirements of 1901 will not be less than 34,000,000 tons. The production of pig-iron throughout the world was, in 1897, 31,000,000 tons; in 1891, 26,000,000 tons; in 1881, 20,000,000 tons, and in 1871, 13,000,000 tons. As the production of Great Britain cannot be very readily extended, owing to the difficulty of obtaining ore, it seems probable that the United States will have to supply the bulk of the additional 3,000,000 tons of pig-iron which are likely to be required during the next three years. Germany is the only other country which has been increasing its output to any extent, but this has only been at the rate of 300,000 to 400,000 tons per annum on the average."

VESTING TITLE BEFORE PAYMENT.

IT is currently reported that the city administration will obtain the introduction, and push the passage through the next Legislature, of a bill to repeal those portions of the existing law which give the city title to lands required for distinctly public improvements in advance of the ascertainment and payment of damages. Mayor Van Wyck recently condemned this practice very strongly, and said it would bankrupt any government in the world if persisted in. He quoted the Elm street case, in which large sums will have to be paid for interest on awards, while awaiting the issue of bonds necessary to carry out the improvement. As a matter of fact, the provisions of law referred to have worked badly and ought to be modified, at least, in order to avoid injury either to one side or the other. The late administration, under a popular demand, decided to push certain improvements to a more rapid conclusion than then seemed likely, and, as the difficulty lay in obtaining title to the necessary land, they secured the passage of bills which gave the city title in certain specified cases on certain specified dates. For instance, title to the land required for the Third Avenue bridge approach was obtained on very short notice, and the property has been taken, although not only has not a penny of compensation been paid to the late owners of the property, but the amount of that compensation has not even been determined. We allude to this as a matter of fact, and not imputing blame to anyone for the delay. But when allowing the city to take this property, the Legislature, to compensate the person thus arbitrarily deprived of his property, decided that the awards when made should bear interest at the legal rate from the date when title passed.

Last year, actuated by a desire to extend this principle wherever possible, the Strong administration secured the passage of two acts of more general application. One of these, now Chapter 676 of the Laws of 1897, amended Chapter 293 of the Laws of 1895, more popularly known as the Small Parks Act. The amendments conferred on the city additional powers for taking title to land embraced within the boundaries of parks established under the earlier act. In the case of parks already selected, it provided that title should vest in the city in thirty days after its passage. In the cases of parks laid out after the passage of the amendatory act, the Board of Street Opening and Improvements may, by resolution, fix a date when title to the property required shall vest in the city. The second act referred to was Chapter 630 of the Laws of 1897. This applied the procedure laid down in the charter for the Greater New York to condemnation proceedings instituted by the then existing corporation, known as the Mayor, Aldermen and Commonalty of the City of New York. It provided for a uniform system in proceedings to condemn property required by the municipality, except for street openings, parks, aqueducts and docks, but affected sites for school houses, station houses, armories, court houses and everything not specifically excepted as stated. One of its most important provisions is that the board or department directing con-

demnation proceedings may, by resolution passed before the application is made to the court for the appointment of Commissioners of Estimate, specify that at a date four months after the filing of the oaths of the commissioners the title to any piece of parcel of land shall vest in the city.

Besides these provisions for acquiring title, the practice prevailed of inserting in improvement enabling acts special provisions for securing the use of land on which to make the improvements, thus title to the land acquired for the new Hall of Records vested in the city four months from the filing of the oaths of the commissioners, and the awards, when made, will carry interest from that date. As much as a consequence of the restriction of the city's credit that consolidation produced, as of the operation of these acts and special provisions, the city has incurred a very large burden for interest and a large and aggrieved body of innocent people have had their property taken away from them with only a prospect, distant, though certain, of compensation. We have had from time to time to call attention to the gross and painful injury that this system has inflicted on individuals whose only means of living lay in properties thus taken from them and which were rendered entirely unavailable by that fact. There was no revenue, or if there was, the city, as owner, collected it; mortgages could not be enforced, and the owners of the fee had nothing on which they could raise money if they wanted to, the claim on the city being indeterminable as to value and consequently not good security. It is the invasion of the individual property rights and the direct pain too often inflicted thereby that form the best arguments in favor of the abandonment of the practice of taking property in advance of payment.

There is to be said in favor of the practice that it enables public improvements to be completed long before they otherwise would be. The Third Avenue bridge, for instance, could not have been opened yet if the city had not secured the land for the approaches in advance of the making of the awards of damages. But there cannot be a question that the precedence of public over private need has, in this matter, been carried to a dangerous extreme. If the legal advisers of the city cannot devise a plan by which the property owner can secure more immediate compensation for property taken under the law of eminent domain than has lately been customary, it will be better that we revert to the old customs, even though improvements may be delayed as a consequence. There should, however, be no necessity for either the public, that needs the improvements, or the individual, who does not want to have his property and often thereby his means of subsistence taken away from him before he is paid for it, suffering. It will be a sad admission of want of legal ingenuity if a better way cannot be devised for disposing of this difficulty than by simply accepting one of two unpleasant alternatives.

ELM STREET is to be cleaned up at last, after months of neglect. A way has been made so that vehicles can get through it, though the Department of Highways is still engaged in removing the mounds of earth and rubbish that have obstructed some parts for months, and a beginning has been made on the work of laying the water mains. After the publication of the photographic views of the street contained in our last issue, it is not surprising that official activity was awakened, because they told the story of neglect so thoroughly and inferentially, placed the blame so exactly where it belonged, that it could not be dodged. There is still room for complaint that the work is not being pushed with sufficient energy, especially as the winter season will soon be here and further operations made difficult, if not impossible. Those interested should keep their eyes upon the work, so that it may not be dropped, now it has once been begun, until thoroughly completed. A makeshift would at the coming of the first stormy weather prove to be worse than nothing.

IT is not often that an opportunity for contrasting estimated with actual cost in building is presented, so that when one arises it is interesting. One such is given by the last annual report of Columbia College, which contains the amounts expended upon the various buildings erected by the college on Morningside Heights, which we give together with the estimates of cost given to the Department of Buildings when the plans were filed. It will be seen that in each instance the estimates were largely exceeded: Library, cost $1,100,542, estimate $750,000; Schermerhorn Hall, cost $457,658, estimate $375,000; Fayerweather Hall, cost $274,113, estimate $220,000; Havemeyer Hall, cost $516,488, estimate $400,000; engineering, cost $284,075, estimate of cost not given when plans were filed; vaults, cost $67,699, estimate $60,000. We do not draw any conclusion from these figures, but give them because of the fact first stated as well as because of the interest that attaches to them in their relation to so important an institution as Columbia College.

THE FORECLOSURE RECORD.

As the year proceeds the statistics relating to the foreclosure sales show that an increasing amount of the property sent to the hammer for failure of the mortgage conditions has had to be taken to protect the interest of the mortgagee. This will not surprise anyone who has watched the auction market particularly for the past two months. During those months the business of the market was not only almost wholly confined to forced sales, but it attracted so little outside demand that those who had advanced money on the properties offered were compelled to step in and protect themselves. Some notable examples of this were furnished by the Grenoble and the Olympia sales. It is further brought out by our table of foreclosure sales for the first three quarters of the year which will be found below. In the period for last year a total of $17,874,787 was disposed of, and of this 57% was bought by plaintiffs; this year, so far, a total of $13,510,757 has been sold, and 67% to plaintiffs. The difference may be, and probably is, due to causes not likely to be permanent, especially as in other respects the table is favorable to the current year. The amount of property foreclosed was very much less this year than last, and there seemed to be less reason for withdrawing parcels when once announced for sale, although this has its unfavorable as well as favorable aspect. The other features of the table explain themselves. The figures are compiled from the auction sales recorded in the issues of this paper between January 1 and October 1 of the two years:

HALL OF RECORDS' SITE APPRAISEMENT.

With the renewal of hearings by the commission appointed to estimate the value of the property taken for the Hall of Records' site, another expert witness, Alwyn Ball, was called on behalf of the property owners, making the second such witness called up to this date. The first was Frank Lord, whose appraisements were given in these columns last summer. As an interesting comparison they are repeated in the table below in which those of Mr. Ball are given for the first time:

COLONIAL PARK AWARDS.

The damage estimate for lands taken for Colonial Park has been prepared and is now on file with the Board of Public Improvements. No date has yet been fixed for hearing objections. The land taken is a strip running from 145th to 155th street, between Bradhurst and Edgecombe avenues. It embraced 192 parcels of various kinds, each being in some way or other different from the rest. The only improvements of modern character were the row of dwellings and the flat on the north side of 145th street. The awards make a total of $1,183,127; they are as of January 5, 1895. The basis of the Commissioners' valuation is hard to discover, probably for the reason already given that the parcels vary so much in character. A few cases may afford some light on their views on values. For the dwelling on the northwest corner of 145th street and Bradhurst avenue, $24,200 was awarded; for ten smaller dwellings on the same block sums from $11,550 to $12,100 were given; for a larger dwelling next the northeast corner of Edgecombe avenue $20,000 was allowed, and for the flat on the corner itself, $33,500. For an unimproved parcel on Edgecombe avenue, 130x100, $29,120 was awarded, and

for two interior lots south of it, each 25x130, $2,400 and $2,500, respectively. A plot, bounded on the west by one of these two lots, for which the larger award was given, fronting on Bradhurst avenue, and having dimensions of 130x75, the award was $19,649. For a plot of about 18 lots, each 25x112.6, running from avenue to avenue, there was awarded $77,700; for a lot on Edgecombe avenue, 20 feet below grade in the rear, 67 feet below in the middle, and 38 below in front, and which at the Faye sale, in 1893, sold for $1,900, $4,700; for 50x100 on the same avenue, that sold at the same sale for $4,300, $8,800, and for an interior plot on Bradhurst avenue, 50x100, $9,900. The individual awards are:

Edward Dwyer, $24,200; Meyer Michaels, $12,100; Mary Frohman, $11,825; Euphemia S. Coffin, $11,550; Minar S. Karl, $11,550; Sarah S. Mitchell and Joseph D. Lennox, $11,550; Emma L. Harris, $11,550; Emily R. Mitchell, $11,550; Samuel T. Graham, $12,100; Geo. W. Ellis, $11,825; Mary C. Van Riper, $11,550; Wm. J. Huston, $20,000; Seth M. Milliken, $33,500; (the preceding are the awards for the 13 parcels on the north side of 145th street; they begin at the corner of Bradhurst avenue and proceed west); John Casey, $35,000; Edmund Coffin, Jr., $15,302; Elizabeth R. Carlin, $21,375; Joseph B. and Mary Ann Powers, $9,000; Richard F. Carman, $35,960; Anna Fellman, $39,600; Anna Maria Deen, $30,680; Estate of James Monteith, $29,120; Helen B. A NEW RIVERSIDE DRIVE MANSION.

BETWEEN 76TH AND 77TH STREETS.

The five-story double American basement house, No. 42 Riverside Drive, just completed by Charles Buek, the well-known architect and builder, is situated on the portion of the Drive that forms a sort of broad promontory out into the Hudson River, and from which an unobstructed view is to be had up and down that beautiful stream. The arrangement of bays on the front of the house is such that the most is made of this advantage.

The house is built in the style of Francis I., a style which can be excellently adapted to modern dwellings. The material of the front is Indiana limestone resting on a grey granite base, and the cornice and ornamental roof-work are made of copper and show the natural color of the metal. The house is entered through a vestibule fitted with glass and storm doors and which opens into a large entrance hall finished in quartered oak, with a timbered ceiling, high wainscot and parquet floor. On the right of the hall is an oak and tile mantel, surmounted by a paneled hood. Facing these is a broad and deep seat. Further on the left-hand side of the hall are the stairs, which are broad, with low treads. On the right of the hall is a large room to be used for billiards or as a reception room. This is excellently lighted and finished with wainscot and parquet floor in quartered oak, and has a wash-closet at the back. In the rear of the basement is a large laundry fitted up with porcelain tubs and every other convenience, and a light and commodious kitchen connecting with the laundry is wainscoted in white enamel tile to a height of about seven feet. A porcelain sink is provided with marble drip trays. This important department of the house is a model of convenience. Back of the kitchen are the serving-room and servants' stairs, which run continuously to the top floor, where the servants' quarters, composed of five bedrooms and a bath room, are situated. A dumb-waiter runs to the third floor.

NO. 42 RIVERSIDE DRIVE.

Charles Buek, Architect, Builder and Owner.

The main stairs throughout the house are broad and remarkably easy to ascend; their material is solid quartered oak. The various staircase halls are of different designs, all executed in oak to conform to the stairs. They are light and spacious and insure easy communications. The stair-well is lighted and ventilated by a large stained glass skylight in the roof. An electric elevator runs from the first floor to the top, stopping automatically at each floor; the doors open on a central part of the main halls, an arrangement that has a distinct advantage over that of placing the elevator in a remote and inconvenient part of the house.

The drawing room, library, dining room, butler's pantry, etc., are on the first floor above the basement. The drawing room is Colonial in design and exemplifies one of the richest phases of this style in the fact that the woodwork is a combination of ivory white enamel and dark mahogany. Opposite the main door is a large console mirror, over which is a delicately designed entablature supported on each side by two Corinthianesque columns, six or seven feet high, the shafts of which are mahogany and the bases and capitals white. The glass is about the height of the columns and is elliptical at the top, giving the effect of an arch. The pedestal of the columns conforms to the ornamental base that runs around the entire room. At the rear of the drawing room there is a triple arch arcade, supported on mahogany and white columns, and through these one enters the conservatory, in one corner of which is a mantelpiece and fireplace in white. There are windows of stained glass at the back admitting a mellow soft light, and from the drawing room the effect is very striking. A door in the conservatory opens into the dining room, which is also entered from the main hall through large sliding doors. This room is spacious and well lighted, and in addition to being an ideal dining hall, is really a work of art. It is also finished in selected quartered oak, with a richly moulded wainscot six feet high and a heavy timbered ceiling. In one corner is a glass closet for the exhibiting of cut glass. On the south side of the room is a heavy carved mantelpiece enclosing a fireplace of generous dimensions. The mantel-shelf proper, is heavy with well-proportioned mouldings, and is supported by two gaines or carved figures, one on each side of the fireplace. Above these and resting on the mantel-shelf are fluted Elizabethian moulded bases and carved capitals which support the crowning entablature. The space between the columns is filled by a large plate glass mirror. This piece of work is not only well designed, but an example of fine wood-carving. The room has been executed in excellent taste and, while it possesses an appearance of richness and solidity, neither of these desirable qualities have been overstepped. Back of the dining room are a large butler's pantry, dumb-waiter, back stairs, etc.

The library is in the front, and together with the drawing room, overlooks the river. It is entered from the hall through a large doorway, and there is a clean sweep the entire depth of the house when this door is open, and when closed the seclusion of one enclosed room. The room which connects with the drawing room is done in rich mahogany, and, although quite in harmony with its neighbor, is characteristic in design and finish. The south side is ornamented by an elaborately carved mahogany mantel with a tiled fireplace and hearth. A high mahogany base

runs around the room, which is further beautified by a parquet floor. On the floors above are the family bedrooms, of which there are ten altogether. The chief ones are connected by dressing saloons, and have luxurious bath rooms attached. These bedrooms are spacious and light and trimmed variously, but tastefully, in hazel, maple, elm and other costly woods. The bath rooms, of which there are five, are tiled floor and wainscot, and furnished with porcelain bathtubs, nickel-plated piping, etc. The servants' quarters are at the rear of the fourth floor. The house is heated by steam, supplemented by fireplaces arranged for gas logs, which are in every room; there is an abundance of store rooms, and altogether the house is as elegant and substantial as any first-class dwelling built for the market. It has a front of 40.6, a feature that probably cannot be found in any other new dwelling now for sale in this city. The owner's high reputation for excellent work is fully maintained in this house. He offers the house at $110,000, and is prepared to meet buyer in the matter of terms. His office is at No. 109 West 42d street.

CARTOGRAPHICAL NEEDS OF THE NEW TERRITORY.

It is a fact which deserves recognition that the activity in real estate is at the present moment more pronounced in the outlying parts of the several boroughs than it is in the central parts. In Brooklyn both the stated consideration recorded in the conveyances and the estimated cost of projected buildings have increased since consolidation, compared with the corresponding period last year. But the increase has been confined chiefly to Flatbush, part of Flatlands, and New Utrecht. In the old city of New York, comprising Manhattan and the Bronx, whereas the number of conveyances has increased, the stated consideration has experienced a perceptible decrease, a circumstance which tends to strengthen the impression imparted by our weekly Gossip column, that it is the cheap, unimproved land in the northern part of Manhattan, as, for example, on Washington Heights and in the Dyckman Flats, that finds the readiest sale, while the process of subdivision and improvement of estates shows little, if any, abatement north of the Harlem River and west of the river Bronx. This activity in outlying real estate is a reassuring sign for two reasons—it indicates easier circumstances on the part of the small merchant and that large class of professional and semi-professional men whose incomes vary with general conditions of business; and it tends, by increasing the assessed valuation of cheap suburban property, to decrease the burden of taxation on expensive property in the heart of the city. It may be admitted that the professional operator is at the bottom of the activity, but his customers are the home seekers and small local investors.

In a community where eight-tenths of the burden of taxation is carried by real estate, and where some $20 is contributed in taxes for every $1,000 of the assessed valuation of one's property, the economic expediency of encouraging the improvement of outlying suburban property with a view to raising its taxable value, is patent—the more so, as, without such enhancement of suburban realty, a general scaling up of the assessed valuation throughout the city will be necessitated by the present position of the public debt. True, there is some talk of asking the Legislature to modify the legal restrictions in respect of the debt limit, so as to avoid the necessity for scaling up the assessed valuation. But in either case the result would be the same—an increase of taxation without corresponding increase in the capacity for sustaining the tax. The only efficient, and, at the same time, just means of securing a revenue which shall be adequate to provide for the common decencies of municipal housekeeping is to facilitate building improvements on the city's frontier, which means the transformation of unproductive to productive property, with a consequent enhancement of its taxable value.

The one great existing obstacle to improvement is the absence of a city plan in large parts of this outlying territory. Part of Coney Island, the islands in Jamaica Bay, 10,000 acres in the 32d Ward of Brooklyn, 76,000 acres in Queens, namely, the whole of the borough outside Long Island City, and 56,000 acres in Richmond Borough, besides that part of Manhattan which lies north of 155th street, have no authoritative layout, without which improvement must remain in abeyance, although recent applications to the Board of Public Improvement for permission to lay out acre property in Corona, Elmhurst, Newtown and other places—applications which have had to be denied—show that much of this suburban territory is ready for subdivision. The charter provides that the president of the Board of Public Improvement shall "prepare a map of so much of the territory embraced within the city of New York, as constituted by this act, of which (sic) a map or plan has not heretofore been firmly established and adopted, * * * locating and laying out all parks, streets, bridges, and tunnels, and approaches to bridges and tunnels, and indicating the width and grades of all such streets so located and laid out," which map shall be reported to the board. Work on the map, which will require some years for completion, is of course conducted in the Bureau of Topography. The provisional estimates for a proper continuance and extension of the work in 1899 are as follows for the several boroughs: Manhattan, $37,725; Bronx, $179,575; Brooklyn, $78,275; Queens, $77,643; Richmond, $33,979, making a total of $407,197. This sum the Board of Estimate are requested to appropriate, and on the 18th of this month, when the board holds their public hearing on the budget for the coming year, owners of suburban realty can make themselves heard in support of the request. The comparatively large sum requested for Bronx is for completing the survey of the district east of the river of that name and for perfecting in detail the tentative map recently adopted by the Board of Public Improvement. The final map will probably be approved and filed within a year, whereupon the district will be ready for improvement.

CORRESPONDENCE.

ELECTRICITY CHARGES.

To the Editor of THE RECORD AND GUIDE:

The Edison Company is so much indebted to the appreciation and patronage of builders and architects who are readers of the Record and Guide, that it seems proper to depart from its usual practice and to give them through your columns its view of the legal status of questions raised in a communication recently printed by you.

Section 65 of the Transportation Corporation Law is a special provision to prevent the denial of facilities in any building because of arrears from a former occupant, and provides that upon the application of occupants within one hundred feet of an electric or gas main, the corporation shall supply gas or electric lighting, notwithstanding there be arrears from a former occupant, provided the occupant shall deposit a sum sufficient to pay the cost of extending the mains to his premises. The next section provides that such a corporation may require a deposit in advance for such supply, and there is nothing in either of these sections, or apparently elsewhere in the law, to prevent the application of reasonable rules or regulations in handling business or to prohibit a minimum charge which is not in the nature of a rental for the meter, but is in recognition of actual cost in handling a customer who buys less than $1.50 worth a month of electric current and in providing the necessary means for supplying him.

This minimum charge, however justifiable in law, has nevertheless been the subject of much objection on the part of consumers, and as it has been applicable in comparatively few cases, by no means the "thousand" stated in the letter to you, it has been decided not to include a minimum charge, except where the company loans arc lamps, in the contract which has been drawn in connection with the reduced rates announced under this date.

In regard to the supply of current to supplement an isolated plant, without guarantee of a stated amount of consumption, the position of this company regarding "breakdown connections," as they are called, will perhaps seem to your readers, on consideration, not unjust. The owner of a building who has installed an isolated plant finds himself confronted by the possibility that such a plant, under more or less unskillful management, may break down; and he may find also that the plant which he has been induced to install, for purposes of economy, is inadequate to provide for the full supply at the maximum hour of demand, although quite sufficient to cover ordinary use. In such cases he naturally desires to look to an electricity supply company in case of breakdown of his plant, and to help him out during the "maximum" hours. For such use an electricity supply company must, of course, provide not only service connection exclusively for his plant, but must reserve for him, as it were, the necessary proportion of capacity in the generating plant in its stations and on its street system. It can scarcely be called upon to make such investments for nothing, or for a merely nominal guarantee. The isolated plant owner, under the circumstances above stated, requires current from an electricity supply company at hours when it is supplied at the greatest disadvantage to the supply company, and, of course, the isolated plant is quite likely when it breaks down to do so at the same maximum period. The supply company must furnish the current at the moment of demand, and this can be done only by direct supply from the generators, in the case of alternating current, or by such direct supply with the alternative of a storage battery, in the case of direct current. A storage battery is a costly method of supply, not only because of the loss of 25% of energy in its operation, which requires that one and a third units of current should be put into the battery for every unit taken from it, but also because of the large original cost and maintenance charges which increase the cost of current delivered through a storage battery approximately 50% or more. The Edison company has initiated a system of reduced rates, based on long-hour use, which it believes renders isolated plants unnecessary and uneconomical in comparison with central station supply, and, under the circumstances stated, perhaps your readers will agree that the practice of the Edison company in demanding a substantial guarantee for "breakdown connections" is neither illegal nor unjust.

R. R. BOWKER,
First Vice-President,
The Edison Electric Illuminating Co., of New York.

The Building Trades

Building Material Market.

The market in some respects shows an increased activity over last week, the season now being short for the manufacture of brick, while the climatic conditions in the south have increased prices on certain kinds of lumber:

BRICK.—Sixty-six barges of Hudson Rivers came in this week, of which 62 were sold. Specials and first grade common are selling at $5.00@6.00. Common are bringing $5.75, and Pales, $3.75 quick. Demand is seasonably good, and supply about equal to it. New Jersey are selling at $5.50 for common, $4.50 for light hard, and $4.00 for pale. The demand is extra good, and prices rule firm.

CEMENT.—Orders for Rosendale are coming more freely, the demand is seasonably good, and cargoes are being sold on arrival. There is not a boat in the market, and prices rule firm at last week's quotations, with an upward tendency. The market in Domestic Portland is tighter than ever. There is no stock on hand, and firms are turning orders away. Orders now placed will absorb the production up to the first of the year. The trade in Imported Portland is also suffering from a scarcity of stock, and the demand is far in excess of the supply. An easier market is expected along about Jan. 1st.

LIME.—No great quantities of State lime are arriving and stock is pretty well bought up. Prices hold firm at 65c. and Jointa at 85c. There is no Rockland in the market. Cargoes arrived Monday and were all sold. There is only a moderate supply on the way. Prices are holding firm at last week's figures, and the demand is good.

LATH.—The demand is very good, there being 5,000,000 sold this week. Prices are firm at $1.65. There are none in the market, and no more than 3,000,000 on the way.

NAILS.—Prices in wire nails remain firm at last quotations. At a meeting of the cut-nail manufacturers held on Wednesday, the price was advanced 5c. a keg. The demand for cut and wire nails is fair. There is a scarcity of certain sizes of cut nails owing more to limited manufacture than to increased inquiry, and a slight increase of output would fill all demands.

OIL.—The demand is better than at last reports. Prices in the local market are firm at 36c. for single barrels raw oil and 35c. for 5-barrel lots and over. There is a good inquiry for oil for immediate wants, and some inclination to buy for future. The seed market is practically unchanged.

LEAD.—There is no change in prices. Trade continues brisk in large and small lots.

GLASS.—Trade is seasonably excellent. There is no likelihood of a change in prices, which are firm at last quotations.

LUMBER.—In North Carolina pine there is a scarcity of No. 3 flooring, all sizes, No. 2 flooring, and partition 2½-3½ face, edge and No. 2 box. The demand is good, but there is a scarcity of stock owing generally to rains in the south. Prices are stiff. The conditions in yellow pine are unchanged. Prices have advanced in some cases on account of increased freight, but generally rule firm at figures last quoted. The inquiry is good, but the supply is at present quite up to it. It is anticipated that rains in the south will impede transportation in the near future. The trade in spruce is normal, with prices firm but unchanged.

HARDWOODS.—Trade active, with export orders prevailing. Prices are firm at old figures. Ash is in good demand, with supply inadequate. Oak, quartered and plain, in fair demand, at good prices. In general all woods are active, with whitewood perhaps being the feature.

NAVAL STORES.—Spirits of Turpentine have advanced 2c. over last week's quotations, in sympathy with the upward movement of the southern market. Trade at the advance was moderate and mostly in small lots. Prices have an upward tendency, and the market closed firm at 32½c. for regulars and 33c. for machines. Although inquiry for Tar was moderate, this week, prices were firm owing to the scarcity of stock. Quotations: Regulars $1.95@2.00; oil barrels, $3.75@3.85. Pitch was quiet, but steady, at $1.60.

At a meeting of the Marble Industry Employers' Association, held on Monday, it was agreed to support the firm of Batterson & Eisele in the strike against them on the Park Row Building.

The War Department has sent a notification to M. Gibbons & Son, of Brooklyn, that their bid for the erection of the new hospital on Davids Island has been accepted. The builders are to begin operations immediately. The structure will cost about $30,000.

Albert F. D'Oench, the well-known architect of the firm of D'Oench & Simon, and formerly Superintendent of the Department of Buildings, arrived on Wednesday from an extended tour through Europe. Judging from his appearance, Mr. D'Oench must have had a very enjoyable trip.

According to a Pittsburg dispatch the stove manufacturers of the East have decided to advance prices on stoves for the coming year, pursuant to an agreement reached at Detroit at the annual convention. The Western manufacturers recently advanced prices 5 per cent. The Pittsburg manufacturers met this week and it was decided to communicate with the Eastern manufacturers relative to an advance to take place about Nov. 1. The Pittsburgers favor an advance of at least 5 per cent.

At the meeting of the Board of Estimate, on Thursday, the Department of Highways was allowed $4,995,890.17 for improvements in 1899. The Commissioner of Highways will submit within a week estimates for the erection and maintenance of an asphalt plant, the object of which is to reduce the cost of paving. The Deputy Commissioner of Parks for Brooklyn was allowed $150,000 for the erection of a public bath at Coney Island.

The Board of Estimate this week considered the estimates of the Building Department. Thomas J. Brady, President of the department, asked for $565,680, an increase over this year of $91,850. One item called for the increase in the salaries of the Superintendents of Buildings from $3,500 to $5,000. "Strike it out," ordered the Mayor. Mr. Brady also asked for 128 more inspectors than last year, nine stenographers, and forty-eight messengers. These matters will be considered at another meeting of the Board.

John H. Maxwell, one of the most prominent members of the marble trade, died on Friday, September 30th, at the age of 44. Mr. Maxwell was a son of Crawford Maxwell, who has been prominent in the marble business in New York for the past forty years. He was for about five years up to the time of his death a member of the firm of Rist & Maxwell, and took an active part in the Marble Industry Employers' Association, of which he was the treasurer. He was a man of remarkable personality, and was highly esteemed in the business and social circles in which he moved.

A corporation named the New York Land and Warehouse Co., with a capital of $1,000,000, has been organized to undertake a large dock and warehouse business in Long Island City, on the Union College lands, in the Hunter's Point part of Long Island City, recently sold to Wm. Halls, Jr., Cashier of the Hanover National Bank, Pine and Nassau streets. The officers of the new company are: President, William Halls, Jr.; Vice-President, Joel Francis Freeman; Treasurer, J. B. Ackerson; Secretary, Thomas K. Boggs. The office is at No. 85 Borden avenue, Long Island City.

Buildings in which no Croton is used; well or spring water only being used; no charge.

Alterations and extensions, using less than 10,000 brick; not charged.

The Sinking Fund Commissioners have voted $4,600 for a new roof on the Twenty-second Regiment Armory.

MEETINGS FOR THE COMING WEEK.

Mechanics' and Traders' Exchange, at No. 1123 Broadway, Tuesday, Oct. 11, at 1.30 p. m.

Mason Builders, at the Building Trades' Club, No. 1123 Broadway, Thursday, Oct. 13, at 8 p. m.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Wm. J. Roome has changed his quarters from No. 410 6th avenue to No. 11 West 34th street, opposite the Waldorf Astoria. Mr. Roome has been established in the real estate business in this city since 1852, and is therefore thoroughly conversant with all details of values, selling, renting, collecting, buying, appraising, etc. His new location being so central ought to make the conveniences of his perfectly equipped office attractive to new, as well as to old clients.

Ernest Tribelhorn is a young and energetic agent and broker who makes the recently much improved section north of Central Park the scene of his best efforts. His office, at No. 1844 7th avenue, near 112th street, is conveniently located, and his lists of properties for rent and sale are kept strictly up-to-date. His specialty is the management of estates. Mr. Tribelhorn's telephone call is 429 Harlem.

Broker N. W. Chambers, of Nos. 57 and 59 William street, who for the last eleven years has successfully carried on a large mortgage loan and real estate business, has removed to more commodious quarters in the new Cushman Building, on the northeast corner of Broadway and Maiden lane, where he will have associated with him Mr. Wm. B. Brokaw, under the firm-name of Brokaw & Chambers. They occupy the entire seventh floor, and will carry on a general real estate business, embracing selling and exchanging property, renting, collecting rents, managing estates, loaning money on bond and mortgage and the placing of fire insurance. Thoroughness and reliability will characterize the business of the new firm, which will be departmentized, each department in charge of a competent head. Mr. Brokaw is well known in mercantile circles. For many years he has been an owner of real estate and is well qualified for work in the realty line. Brokaw & Chambers are such well-known, energetic and experienced workers that their success seems assured from the start, and they are likely to take a place among the leading brokers, agents and managers of estates. Individuals, executors and corporations having property will serve their interests by consulting Brokaw & Chambers, who will give careful attention to large and small transactions. Their telephone call is 4030 Cortland.

The long-established, reliable and successful firm of Ruland & Whiting, makes a specialty of appraising, selling, renting and caring for down-town property. They have charge of many large structures, such as Temple Court and the Metropolitan Realty Building, which they successfully manage, and their lists of desirable business properties for rent and sale is very complete. The firm's offices, at No. 5 Beekman street, are on the site of their first office, established about thirty years ago.

Sydney Fisher, manager of estates, occupies centrally located offices in the Appellate Building, Nos. 54, 56 and 58 Lexington avenue, corner of 25th street. He succeeds John Bisco, who established the business in 1845, and continues the careful and successful management of property and collection of rents for which his predecessor was noted.

McVickar & Company, successors to S. V. R. Cruger & McVickar, have removed their main office from No. 187 Fulton street to handsome and commodious quarters at No. 24 Nassau street, ground floor, opposite the Equitable Life building. The other offices of this enterprising firm are at No. 1368 Broadway, No. 246 East Houston street and 108th street and Central Park West.

Real Estate Market.

The activity in the private sales' market continues to be confined to dwellings, flats and vacant property, although the volume of business reported is larger than for some time past. Among the significant transactions of the week was the purchase of two valuable 5th avenue properties by adjoining owners. Although the purchases were ostensibly made to preserve the residential exclusiveness of the block, the roomy and well-proportioned plots so obtained will no doubt be in demand before long as hotel or business sites. Another gratifying transaction was the trade of a 7-story apartment house on the corner of Madison avenue and 31st street, for 19 lots on and near 42d street and 10th avenue. The apartment house, which was valued at $321,000, and which has been acquired as a permanent investment, is thus, after some vicissitudes, removed from the market, while it is stated that the lots have been resold to a builder for improvement. Among the numerous parcels of vacant land sold was one of 50 lots on 7th avenue, between 138th and 139th streets, valued at $300,000, and another of 30 lots on the Boulevard, between 160th and 161st streets. The total number of transactions reported below is 29, with considerations given in 14 amounting to $1,588,500; corresponding figures for last week were 36, 12 and $657,500, respectively.

The auction market this week showed an improvement over last, and, indeed, contained more voluntary offerings than the corresponding week last year. A number of the sales, both voluntary and forced, attracted a good attendance, and called forth some show of animation on the part of bidders. At the executors' sale of the McConville estate, conducted by James L. Wells on Tuesday, 49 vacant lots, located on and near 149th street and Southern Boulevard, realized the sum total of $49,705, those on the Boulevard bringing from $1,450 to $1,850 each. Although the attendance was larger than any seen at a single sale in the auction room for some time past, the lots were distributed among four buyers only, and at comparatively low prices. The 5 lots on Elsmere place, between Prospect and Marmion avenues offered at voluntary sale on the same day by S. De Wallteargs, were bid in at $1,400 each. On Wednesday was held the executors' sale of the Fleming estate by Bryan L. Kennelly. The mansion on the corner of St. Nicholas avenue and 153d street, with seven lots, was bought by Chas. Gulden, representing one of the heirs, at $54,000, and No. 503 Canal street went to Therese Browning at $11,900. The four remaining parcels were either bid in or withdrawn. No. 879 West End avenue, offered at voluntary sale by the same auctioneer, was bid in at $26,000. The most satisfactory voluntary auction of the week was the executors' sale of the Fosdick estate by Richard V. Harnett, on Thursday, which brought out some spirited bidding, and resulted in fair prices, as follows: The 4-story dwelling at No. 31 West 36th street went to Frederick Ayre, at $50,100; the three lots on Kingsbridge road, near Hawthorne street, to Max Marx, of the Ernst-Marx-Nathan Syndicate, at $7,500; and the two lots on Hawthorne street, near Kingsbridge road, to Hugh Drenan, at $2,550. The following adjournments to dates beyond next week and withdrawals are noted: No. 2522 7th avenue, Peter F. Meyer, auctioneer, adjourned to Oct. 25; No. 1999 Clinton avenue, Bryan L. Kennelly, auctioneer, adjourned to Oct. 17; No. 117 East 34th street, William Kennelly, withdrawn; and the property at Prospect and Main street, James L. Wells, auctioneer, adjourned to Nov. 3. The sale of vacant lots adjoining Claremont Park, held by John S. Mapes on the grounds last Saturday, we are informed, resulted in the disposal of 32 lots at good prices. Lots on College avenue brought from $850 to $1,015; Teller avenue lots realized $950, and Clay avenue lots, $1,000. There were some professional operators among the buyers, one of whom took 10 lots.

An executors' and a trustees' sale will be conducted by Richard V. Harnett next and the following week as announced in our business pages. The property to be sold comprises some very choice parcels, and will no doubt serve to disclose the temper of the market. Two 5-story brownstone dwellings, Nos. 137 and 139 East 21st street, and the 4-story brownstone dwelling, No. 14 Lexington avenue, will be offered on Oct. 18th, and the five 4-story brownstone dwellings, Nos. 21 to 29 East 76th street, northwest corner of Madison avenue, on Oct. 12th. Maps and particulars may be obtained at the office of the auctioneer, Nos. 71 and 73 Liberty street.

Particular attention is called to the extensive parcel of East River front property which Wm. Hall's Sons offer to lease, in connection with the announcement of their retirement from business next May. This parcel contains 37 city lots, with a dock front of 205 feet, and is well adapted to division and sub-letting. The offer to sell the trim plant at the foot of East 106th street still stands good, as will be seen by a reference to our business pages.

Peter F. Meyer announces in our business pages that he will sell in foreclosure proceedings on Wednesday, the vacant plot No. 634 Broadway, running through to No. 166 Crosby street. The property, which is situated on the east side of Broadway, between Houston and Bleecker streets—one of the best blocks in the wholesale section of Broadway—has a valuable light and air-shaft agreement with the owner of the new 10-story fireproof building adjoining it on the north, and is ready for immediate improvement. For maps and further particulars apply to the auctioneer at No. 111 Broadway, or to Strong & Cadwalader, No. 40 Wall street, attorneys for the plaintiff.

Some fine investment property will be sold by Bryan L. Kennelly on Wednesday, namely No. 96 Park place, a 5-story store and loft building; No. 45 Jay street, a 2½-story brick building; Nos. 164 and 165 Park place, a valuable plot leased at $1,800 per annum; and a vacant lot on the east side of 3d avenue, 25 feet north of 89th street. For a fuller description of the offering see announcement in our business pages. Maps and particulars will be furnished at the office of the auctioneer, No. 66 Liberty street.

REAL ESTATE NOTES.

M. Bargebuhr & Son have opened a branch office at No. 1450 5th avenue, between 117th and 118th streets, where they will transact a general real estate business.

Referee Lewis L. Delafield has recommended to the Supreme Court that the executors of the will of Amos R. Eno be authorized to sell to Amos F. Eno for $250,000 the property on the southwest corner of 5th avenue and 10th street.

Chief Sanitary Inspector Martin stated to a delegation of Park avenue property-owners, which called at the office of the Health Board this week, that to stop the noise from the viaduct between 111th street and the Harlem River, it would be necessary to reconstruct the viaduct.

President Feitner, of the Department of Taxes and Assessments, estimates that $10,000,000 of the assessed valuation of real property in the old city of New York has been temporarily wiped out by the closing of hundreds of saloons under the operation of the Raines Law.

John M. Thompson, of Thompson & Pryor, who was with his regiment, the 71st New York, at Santiago, is again at his office. He was taken sick with typhoid fever on his return on August 15, but has, his many friends in realty circles will be glad to learn, entirely recovered.

Jefferson M. Levy, the well-known real estate operator, was nominateed for Congress at the Democratic convention in the 13th district last Thursday. Another member of the real estate fraternity to obtain a place on the Democratic ticket was Daniel J. Reardon, from the 8th district.

The Committee on Sites and Buildings of the Borough School Board for Manhattan and Bronx has recommended the following sites for new buildings: Twelve lots at 101st street and Columbus avenue; 12 lots at 145th street and the Boulevard; a plot of ground at 116th street and Lenox avenue; and a plot of ground at 182d street and Wadsworth avenue. These properties, the report showed, could be bought for an aggregate sum of $373,750. The report was approved, and will be added to the budget for 1899.

A morning paper quotes Commissioner Edward C. Sheehy, of the Department of Taxes and Assessments, as follows: "From the reports of the deputies we find that flat properties and stores are receiving better rents and that business is prospering. The real estate market is in a more healthy condition than it was last year." It is generally agreed among real estate men that the private sales' market was decidedly more active last September than this. However, the deputies are certainly in a position to note the tendency of rents and values, and when their field work, which has only recently begun, shall be completed, their views will have the weight of authority.

The system of barter, which has been a prominent feature of the market during the summer, is responsible for a new species of economy anent broker's commissions. In several recent operations of this nature the principals have requested the broker to subscribe to an agreement setting forth that his commission shall become due, not on the signing of the contract, but on the passing of title. To undertake business on this basis brokers would have to search titles as well as find customers. It would seem ill-advised on the part of real estate owners, and especially on the part of speculative builders, to haggle about either the amount or the conditions of the commission established by custom, for brokers will certainly not put the same energy into an effort to dispose of a known haggler's property as into work in behalf of property from which the customary remuneration may be expected. And quick sales are essential to success in speculative building.

THE MUNICIPAL ASSEMBLY.

Below is a summary of the business directly affecting interests of real estate owners in the Boroughs of Manhattan, the Bronx and Brooklyn, which came before the Board of Aldermen at its meeting on Tuesday last. There was no meeting of the Council.

POOR'S MANUAL OFRAILROADS.

The "Record and Guide" has received from the publishers a copy of the thirty-first annual issue of Poor's Manual of Railroads" (edition of 1898), which contains the usual statistical summaries of the financial affairs and operations of our railroad system. The "Manual of Railroads" is everywhere recognized as the standard of reference in all matters pertaining to the affairs of our railroad and affiliated interests. The book is known wherever there is interest in railroad affairs, through the services it renders the public by its faithful and comprehensive presentation of the affairs of our railway companies. In its publication this object has always been kept in view: To give the public a faithful abstract of the reports of the railroad companies, and to obtain from each whatever further information may be necessary for presenting adequately the financial condition of every company, and in this way to establish one standard of statements, and that a high one for all.

The "Manual" presents this year the feature of great detail and labor in the statements of the principal companies. These statements will prove of unusual public interest during the ensuing twelve months. It is, of course, of great value to all to have the affairs of all the companies set out in one volume, and so wide publicity given. The new edition of the "Manual" is 130 pages larger than the edition for 1897, and covers the statements of about 4,300 corporations having an approximate capitalization and debt of $16,500,000,000. The new departments added to the "Manual" from year to year have increased the scope of its text matter from 1,167 pages to 1,346 pages, an apparent increase of only 179 pages. But the "Manual" of to-day is printed chiefly in nonpareil and agate, the brevier taking up only eighteen per cent of the book. On that basis the 1,346 pages of Poor's "Manual" for 1898 would equal, if set, as formerly, wholly in brevier 2,588 pages.

Of steam railroads there are presented statements of 1,951 companies—1,782 in the United States, 152 in the Dominion of Canada, and 17 in Mexico. The Department of City and Suburban Railways, comprising electric, cable and horse railroads, is covered by 1,187 corporate statements, and contains every item of information respecting those important enterprises.

Questions and Answers

Correspondents are respectfully requested to confine their inquiries to matters directly relating to real estate, building or architecture. Each question must be accompanied by the name and address of the inquirer, though not for publication; anonymous communications cannot be answered.

PARK AWARDS.

To the Editor of THE RECORD AND GUIDE:

Is there any stipulated time for the city to settle for property which has been condemned for a park; the property has been torn down over eighteen months?

Answer.—No. Payment cannot be made until the awards have been determined and approved by the Supreme Court—and until, it should also be stated, the city has money with which to pay them.—Editor Record and Guide.

STREET WIDENING.

To the Editor of THE RECORD AND GUIDE:

We have a party that desires to erect a building on a piece of ground on a street in Bronx Borough. The change in width of same street is already established on city street map, but the city has not acquired the strip of land necessary for widening street, and party still pays taxes on same. Would he have a legal right to erect building on old street line, and could he recover damages from city when street is widened and he is compelled to move building back?

Answer.—He has a legal right to build on the old street line and can recover damages when the street is widened and he is compelled to move the building back.—Law Editor.

RESTRICTIONS.

To the Editor of THE RECORD AND GUIDE:

A tract of land is restricted, the restrictions running with the land, one item being that no house shall be erected costing less than $5,000. A purchases a portion of the property, subject to the restrictions. B later purchases a strip and builds three houses costing not more than $3,000 each, which houses were erected without the knowledge of A. About three years have elapsed without objection or protest against these houses on the part of any of the owners under the restrictions. C now purchases a lot and receives a deed without restrictions, the seller claiming that as there was no objection or protest made against the building of these houses for so long a time, that the restrictions were wiped out and ceased to be in force. Is it safe for C to put up a house costing less than $5,000?

Answer.—No. The restriction still applies to the property purchased by C, notwithstanding that it has been violated by others. Those who have violated it can be punished, but that is not to say that C can violate it with impunity.—Law Editor.

NO REVERSION.

To the Editor of THE RECORD AND GUIDE:

In August, 1873, A conveyed a strip of land to a railroad company for a consideration. A railroad and buildings were built upon the property and continued to be operated for about five years, when the improvements were all removed and the property has been idle ever since, which is over twenty years. After a long description the deed given reads as follows: "To have and to hold the above granted * * * * (premises) to its or their own proper use and benefit forever, for railroad purposes only." After being abandoned for so long a time, does the property revert to the original owner or his heirs at law through statue of limitation or otherwise?

Answer.—In the circumstances specified, the fee simple, that is, the absolute ownership, of the land, is in the railroad company, to use or not to use, as they see fit. The restriction contained in the words "for railroad purposes only" is of much the same nature as a covenant against nuisances. If they used the land for any other but "railroad purposes," it might work a forfeiture, but there seems to be no reason why they cannot hold it and let it lie idle, and in that case there is no reversion. The statute of limitations has no bearing upon such a case.—Law Editor.

REAL ESTATE AND CREDITOR.

To the Editor of THE RECORD AND GUIDE:

I am a general contractor and have entered into extensive contracts. I own a good deal of real estate and wish to find out from you while I am engaged in these contracts: (1) Am I at liberty to sell if a buyer wants any of my real estate or can my creditors prevent me? (2) Can I sell when I wish to, or can they do anything to prevent me in law? This is to decide a bet.

Answer. (1) You can sell when you wish to. (2) They cannot prevent you. If judgments are obtained against you they will be a lien on your real estate, but before judgment, you can sell anything you have, in good faith.—Law Editor.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.
When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.
Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.
Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

Questions and Answers.

NOTARY'S FEES GRATIS.

To the Editor of THE RECORD AND GUIDE:

Can a law that prohibits us from collecting a fee for services rendered be constitutional? We refer to the certificate required to be signed before a notary by a parent as to the age of a child about to go to work and for which we are not allowed to collect the customary notary fee. We are charged $10 by the State for the privilege of doing notary work, but are not allowed to charge for that same work in the above instance. Will you kindly tell us why this is so?

Answer. I think the law is constitutional. The notary is an officer of the State, and the State may say that in certain cases he shall do his work gratis. A lawyer is an officer of the Court and may be compelled to defend a criminal when assigned, without compensation. You cannot, however, be compelled to take the affidavit.—Law Editor.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

How many days' notice to quit must be given a tenant in the Borough of Brooklyn, in order that the owner may get possession of the flat occupied by the tenant. This party pays his rent regularly and the receipt which he receives distinctly states that the letting is for one month only and to expire on the first of the month following?

Answer.—No notice whatever is required. You can commence proceedings to dispossess on the morning of the day following the expiration of the tenancy.—Law Editor.

LANDLORD AND TENANT—WATER TAX.

To the Editor of THE RECORD AND GUIDE:

A rents store to B on lease, with the Croton water tax clause in it. B also hires the upper part of house as a monthly tenant. There is a water meter on premises covering the entire building. B refuses to pay the water rent, on the grounds that he has no lease on upper part, and did not agree to pay the water rent on it, but only on the store. As B occupies the entire premises, can he not be compelled to pay the water tax for all, there being no way of ascertaining what amount of water was consumed by him on the store floor? The lease for the store is the usual Croton water and fire clause lease, stipulating that the tenant shall pay the Croton water rent which is or may be imposed or assessed upon said premises, etc.

Answer.—I think he can be compelled to pay the whole water tax.—Law Editor.

NOTARIES PUBLIC.

To the Editor of THE RECORD AND GUIDE:

Has there ever been a book published which would be instructive to those intending to become notaries public? Would like to read some book which would inform me about the different legal papers a notary has to deal with, also how notaries are appointed?

Answer.—For the book inquire of Banks Brothers, Baker, Voorhees & Co., or some other law bookseller. Notaries are appointed by the Governor with the consent of the Senate.—Law Editor.

SATISFACTION OF MORTGAGE, WAR TAX.

To the Editor of THE RECORD AND GUIDE:

(1) Does a satisfaction of mortgage (amount $1,250) require a War Tax stamp, and if so, how much? (2) Alex. Burns gave James Park a purchase money mortgage in part payment of a piece of property. Park subsequently assigned the mortgage to his wife. Does he (Park) have to join with his wife in executing the satisfaction piece when mortgage is paid to her?

Answer.—(1) See Record and Guide, No. 1590, page 316. (3) No. —Law Editor.

JOINT TENANTS.

To the Editor of THE RECORD AND GUIDE:

If a deed made by ——, party of the first part, to —— and —— his wife, parties of the second part; the wife dies, does her interest revert to her husband?

Answer.—In such case the husband becomes the owner in fee of the property, by reason of his survivorship as joint tenant.—Law Editor.

ENCROACHMENT.

To the Editor of THE RECORD AND GUIDE:

My neighbor has a stoop which I think encroaches on my ground. At any rate the edges of the steps project over. Can I do anything, or what can I do?

Answer.—You had better first have a survey made in order to be sure that you are right, before you go ahead. If your survey shows what you "think" is correct, you can cause the removal of the portion of the stoop which is obnoxious.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (?) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

STEAM AND HOT WATER HEATING

Telephone, 299 38th Street.

VAN COURT CO.,

Formerly Bonner & Van Court Co.

No. 442 West 42d Street.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

BUSINESS in the stock market has been more active this week and prices have advanced somewhat, and in a sufficient number of instances to give ground for the claim that a new bull movement had been begun. Students of the market, however, will not be deceived by these appearances; to them they simply suggest a change of the speculative base due to causes not likely to be of long duration. The most important of these causes, the renewed heavy foreign buying of wheat, has already been to some extent checked by a rise in freight rates; and the movement of gold this way, the second in importance of these causes, will at least be impeded by the advance in the Bank of England rate. A fact that discourages the hope of more than a merely reactionary advance at this time is the moderate decline that has been obtained, the market taken as a whole, and the really high prices at which many securities still stand. Such prices are due entirely to speculation, and it follows that they must come down before a new movement on the long side can be begun with any hope of success. Such a movement would not be supported by the professional element without the certainty of a big public, to take it up when started, and at the moment the public is shy of speculative issues. Too many improbable stories of coming dividends and of other imaginary favorable circumstances are afloat, simultaneously with the report that one well-known property will pass the dividend on its preferred stock, to remove suspicions of the soundness of present quotations and of the suitability of the situation for a general advance. The case of Lake Erie and Western preferred which ordinarily would not have much effect, arising as it does at a time when only the most rosy views of business were held, is likely to be particularly influential in keeping buyers away and of making investigations into the merits of securities more the rule than has been the case for some time past. If powerful combinations choose to put some securities, in which they are particularly interested, up to figures away beyond either their speculative or intrinsic value they can, of course, do so, but they are likely to have to bear the consequences themselves, because the public has not lost all the caution it acquired as a result of its sufferings in '93 and following years, although, it must be admitted, that the last rise showed that it had lost a good deal.

SOME surprise may be expressed at the substantial advance made in the Bank of England rate, which now stands at 4% as against 3% on Wednesday. This is an unusual jump, and one made only in the face of serious emergencies. The rate was similarly moved on the eve of the Americo-Spanish war, but was soon dropped again when it was found that that conflict was to make little or no demand on European funds. War considerations had, probably, a remote influence on the extent of the last advance, although the simultaneous demand of Berlin and New York for gold, together with the active commercial need for money, may perhaps explain it. With such an incident as that at Fashoda on the carpet, in the present temper of the French people, the Directors of the Bank may have thought it advisable to throw protections around their reserves merely as a proper business precaution. The discouragement of the French claims, by the Russian press, however, makes war over this matter, little probable as it ever was, more improbable than ever. The agricultural party in France recently summarized their achievements [illegible] agitation during M. Meline's ministry as follows: because [illegible]ed for the suppression of Octroi tares, restrictions their purcha[illegible]re of artificial wines from foreign dried fruit, getting good q[illegible]r bounties, on industrial alcohols, for the speculative buye[illegible] in butter, against the importation of for- and the conclusio[illegible]ermitting the milling of wheat in bond, re- the contractor an[illegible]rganizing credit to agriculture in the Bank promise of work [illegible] giving bounties on the cultivation of silk, flax and hemp; increasing the duties on pigs, pork, lard, horses and preserved meats and fruit; the creation of agricultural warrants, and various provisions in the budget for the Department of Agriculture. Boom conditions are prevailing in the German iron and steel trade; in some districts the foundries and works have reached the limit of productivity. A subject which is attracting earnest attention is the continued scarcity and dearness of meat. Meetings are being held at many points to discuss the matter and the Government is being petitioned to remove the prohibition of imports. Business in Vienna and throughout the dual-empire continues to be depressed by the interminable discussion over the States treaty. While the chances for an agreement have been increased by recent events, no agreement is made, and the everlasting wrangle creates nervousness. This delay is becoming ridiculous, because it would probably be easy to prove that owing to the injury done to business by the contest more has been lost by either Austria or Hungary than is involved in their difference of opinion as to the amount each should contribute to sustain the imperial state. Gen. Roca's inauguration as President of Argentine, it is reported, will be followed by propositions for a State monopoly of spirits and tobacco, the assumption of the provincial debts and a fresh issue of currency at 2½ to 1 and other objectionable financial measures. Chili, too, has some economically bad schemes in view for the creation of industries to be supported by bounties. The past quarter has seen varying movements in prices abroad; iron, steel and coal advanced, while textile materials and wheat declined.

THE BAYARD BUILDING

DURING the past few months, the attention of all the passers up Broadway, whose attention was not preoccupied, must have been drawn by the tall, white building, which has been rising, as much like an exhalation, as is the custom of the skyscraper, on the north side of Bleecker street, and separated from Broadway only by a narrow court and the building of the Manhattan Savings Bank. The new building occupies the site, indeed, of the old and earliest Bank for Savings, a Palladian building, erected forty odd years ago, and more successful in design than most that have been done in that manner since. It was grievously defaced by the fire which destroyed its neighbor on the corner of Broadway, and within this decade the institution which it had housed was removed to the building that everybody knows and almost everybody admires, on the corner of Fourth avenue and 22d street.

These facts, with pictures of the old and the new bank buildings, are set forth in a particularly satisfactory and a particularly sumptuous illustrated "prospectus" of the new building which occupies the site, and which, we further learn from the same source, is named the Bayard Building, after William Bayard, the first president of the first savings bank in New York. But the building does not owe its chief interest to any of these extraneous considerations. The experienced observer sees, even in the passing glance that the cable car allows him, that it affords a very original and a very expressive solution of the problem of the skyscraper. If he be familiar with the work of Mr. Louis H. Sullivan, he will be strongly reminded of that work in general by the general aspect of the new building, and an unexecuted design of Mr. Sullivan's for an office building in Cincinnati, if he happens to be familiar with it will occur to him as the prototype of much in the design here executed, and especially of the treatment of its crowning member. If he be a student of architecture, he will take the earliest occasion to walk down the side street, and confront the building, and then the detail will make the identification of its author positive. Mr. Sullivan's work has been imitated, and in some cases with much skill, but never to the point of detecting a practised eye. This detail is unmistakable. Nobody else could have done it.

But let us first consider the general scheme. This is plainly enough imposed by the scheme of the actual metallic construction. In a sense, this may be said of all the steel-framed tall buildings. But in many, in most of them, the object of the designer seems to be to evade or transcend the limitations of his structure, and to do something different. In the Bayard Building, with one questionable and conspicuous exception, to which we shall come presently, the architectural scheme is founded upon the structural scheme, and is the exposition and development of that. The two modes of composition are radically different, and lead to radically different results.

The structure of the Bayard Building, "the cage," consists, so far as the external architecture is concerned, of six posts in the space of a little less than eighty-four feet, thus dividing the front into five bays of fourteen feet each. In a front which is or simulates a construction of masonry, the terminal piers would be and should be distinctly broader than the intermediate. This is the case even in a lintelled construction, as in the Grecian temples, where the eye demands that the angle should be fortified, by

a reduction of the intercolumniation, if not by an actual increase of the column. Much more, of course, is it the case when the front is an arcade, of which the terminal piers are the ultimate abutments. Here they can scarcely be made too wide to give the sense of security and repose, and in practice they never are. But the designers of the modern steel-frame building, designing them in simulation of masonry buildings, give the greatest possible breadth to these terminal piers. In the Bayard the imitation of a masonic construction is expressly renounced. The angle-piers are attenuated to the minimum, like the intermediate piers, and are, in fact, but little broader, though their breadth is made the most of by leaving them quite plain, the intermediate piers being rather elaborately moulded. This would of itself notify the observer that the apparent masonry is not the actual construction but only an envelope of the actual construction. There are other notifications equally distinct. The piers which divide the front into six bays are continuous from the ground to the top of the 12th story, where they are furnished with capitals at the impost of the arches that connect them. But each bay is subdivided at the centre by a mullion which starts not from the ground, but from the third floor, and which has no visible means of support. The inference that it stands in fact upon a cross-beam is obvious. It is questionable, however, whether it is expressed as well as it should be, whether the importance and the continuity of this cross-beam should not have been much more strongly emphasized and the series of mullions been made visibly to stand upon a continuous sill course, instead of each of them resting upon a panel, which is evidently a mere filling and quite inadequate as a support. Such a modification would have the advantage of more sharply distinguishing the two lower stories, in which there is but a single opening in each bay, from the superstructure, and marking this off as the architectural base. At present it is only the first story which is effectively thus distinguished, though the inclusion of the second would evidently make a base more effectively proportionate to the superstructure.

Another point in which the imitation of masonry is emphatically renounced is the "lintel," so to speak, above the columns of the basement. A commonplace design would have treated this not merely as a lintel, but as a fully developed entablature, supported by the columns. Here successful pains have been taken to show that it is not a lintel, but a mere screen, hung to and covering the construction, like a belt of shingles, and that it is not carried by the columns which, in spite of their capitals, disappear behind it and evidently prolong the main piers. The capitals are clearly designed not as weight-carrying capitals, but as mere efflorescences of decoration. The slabs of terra cotta are neither cut into the similitude of arches nor made apparently continuous in the similitude of lintels. They are hung to the front without visible means of support. The indication that they are not the structure, but that the structure is behind them and independent of them, while they are not independent of it, is quite unmistakable. The indication may not amount to an artistic expression of the facts, but it is both a logical and an honest disclosure of them.

At least as much may be said of the treatment of the shaft. This virtually comprises the eleven stories from the second to the twelfth, inclusive, in spite of the difference in treatment between the second and the others. The terminal piers, as has been remarked, are attenuated to the minimum. The intermediate piers are likewise attenuated, and the attenuation is emphasized by the modelling, which consists of vertical mouldings extending the whole length of the pier, uninterrupted by any horizontal lines. The effect is that which was doubtless intended of a continuous metal post wrapped for its protection in an envelop of clinging clay. The mullions that subdivide the bays are evidently not essential to the construction, and they may or may not enclose a metallic rod. As an exposition of the structure, it may be said that the horizontal members are unduly effaced. They are, in fact, as necessary, of course, to the stability of the "cage" as the vertical members, yet they can scarcely be said to appear at all, the panels which mask them being evidently inserted screens of no structural significance. As an architectural work, the shaft exposes itself to the criticism of being lean and monotonous. The leanness is "of the essence," but not so, we believe, the monotony. The designer has recognized this monotony and endeavored to palliate it, in the elaborate drawing which accompanies the perspective, by the ingenious and effective introduction at irregular but studied intervals of projecting awnings. Doubtless this operates as a relief—but this is not the way to do it. It is to be done somehow in the design, and it is one of the things over which the designer of a successful skyscraper must "sweat blood." He cannot do it at his ease by picturesque splashes of light and blots of shadow in the drawing.

Of the general design up to the top of the twelfth story it can be said that it is logical and honest. If one cannot deny this, and yet fails to find it beautiful, the designer may retort upon him that it is as beautiful as it ought to be. This proposition the critic will find it hard to deny, and still harder to confute. But the crowning member, which is the most ambitiously decorative part of the scheme, is that in which logic may seem to have been abandoned. This is not altogether clear. It is quite true that the uprights, which, in fact, must extend to the roof, are here apparently stopped and crowned with capitals, between which arches are turned that have no relation to the general scheme of construction. But the arches may nevertheless be real and consistent with themselves. That there is not abutment for them at the flanks is evident enough, but the thrust may be taken up by the tie-rods which are exhibited at the thirteenth floor-line. Nor is there much force in the practical objection that the thirteenth story is lighted from the floor. As a matter of fact, it is a mezzanine of the twelfth story, surrounding a large well at the centre, extending down to the main floor, and abundantly lighted from a central skylight, so that the two stories are practically, as well as architecturally, united. It is conceivable that some tenant may find this arrangement exactly suitable to his business. As for the stoppage of the uprights, the continuance of them is clearly and cleverly indicated by the upright figures which thus acquire a structural significance that certainly enhances their decorative value. No doubt the device of continuing the uprights even to the brackets of the umbrageous protective shelf of cornice would have been more rigidly logical still. But when one has stuck so closely to a prosaic text through twelve stories, it is hard measure to blame him for "treating resolution" to this extent in the thirteenth. Designers who disregard logic equally in every story are at any rate not entitled to cast the first tile at him.

We have purposely abstained from talking about the decorative detail in connection with the structural scheme, because the primary question is what can be done by a logical adherence to the structural scheme. This is an inquiry which can be best pursued without being complicated with the personal equation. We have suggested that a more effective proportion of base to shaft would have been obtained by a more separate and distinguishing and inclusive treatment of the lower two stories. But the front would none the less have been a stark and rigid and liny work which we could scarcely aesthetically admire, even though we were compelled intellectually to approve it. Whatever positive artistic interest it possesses it must derive from its decoration. Here the personal equation cannot be eliminated. It is of no use to exhort the ordinary designer to make up for the necessary monotony and angularity of a logically designed steel-framed building by emulating the detail of the Bayard Building. It is the invention, life, spirit and grace of this detail, wrought in the most plastic of all building materials, that converts this front from an imperfect scientific demonstration into a work of art, and these are qualities personal and incommunicable.

REALTY interests are probably aware that the Treasury Department is already considering what changes should be made in the War Revenue Law, with the view of making suggestions to Congress when it meets in December. We offer this as a reminder of the fact that those who feel themselves aggrieved by the law should also be at work considering how they can obtain remedies, either through suggestions to the Treasury Department, which would doubtless be forwarded by the local collectors of internal revenue, or by direct appeal to Congress itself when the amendatory bill is before it. It may be wise to first see what the Department suggests before acting, but it is also necessary to know beforehand what is wanted for the real estate business and to be prepared to urge it with force and supported by carefully gathered facts and statistics. The matter should not be left to take care of itself or delayed until representation is useless.

EVERYONE interested in the progress of this city must have heard or read the announcement of the closing of the Clarendon Hotel, with the regret that always accompanies the passing of a landmark however inevitable it may be. The Clarendon was at one time "the" hotel of New York; New Yorkers of the highest standing made it their home, and the foreign visitor of distinction was always housed there; for many years it stood as an evidence of the unsettled conditions that have hitherto prevailed here, through which the various sections have taken on many different characters in a comparatively short space of time. The Clarendon has stood for not much more than a century, and although the leading hotel in its [illegible] was extinguished by the change in the chara[illegible] at least twenty years. fate suggests the question, whether its successful competitors up-town have secured a permanent position or whether they too in times to come will be passed by the traveler for more attractive, if not more refined and respectable temporary homes. Happily for the later ones, the immense amounts of capital invested in them, their size and number within a comparatively small area, suggest that they have created a centre about which the life they require will move and so insure them more permanence than their forerunners found. Running the eye over the city to-day it seems to be taking shape for good, with a determined centre created principally by hotel building and a defined and natural radial growth.

REVIEW OF A DULL QUARTER

THE table below, in which is given a distribution into specified sections of the transfers and mortgages for the third quarter of this year, possesses unusual interest just at this time, when we seem to be seeing the end of the long period of dullness in the real estate business and in building that begun with the agitation of the Cuban question early in the year. Of course, the figures in their general aspect are more indicative of the dullness that prevailed than of anything else, but there are in them, here and there, features that point to the future, as for instance the increased buying in some of the sections, the character of the buying as it is inferred from certain peculiar circumstances and the distribution of the money raised on bond and mortgage. First, however, it will be best to present the figures, which are:

In order to fully understand these figures it is necessary to compare them with similar ones for last year and on doing this, taking the conveyances first, it will be found that they were considerably less than those for the quarter of 1897, when there were 3,104, 1,691 without considerations and 1,413 with, the latter amounting to a total of $17,628,700. In the quarter of this year there was more readiness to give the considerations, because, while the 1,413 transfers just mentioned were about 45% of the total, the 1,304 of the statement for the quarter of this year are 54% of the total. Then, further, in the matter of average considerations the quarter of this year shows up better than that of last. In the latter title to 1,413 parcels passed for a total of $17,628,700, or an average of $12,476 per parcel; in the three months of this year title to 1,304 passed for a total of $20,301,912, which gives an average of $15,568, an increase of $3,092, or something over 24% per transfer. Notwithstanding the dullness of the times, the buying continued active in the sections lying between 59th and 125th streets and the Bronx, and it is also encouraging to note that there was more activity in some of the downtown sections, notably in those between Canal and 4th Streets, east of the Bowery, and between the Bowery and Broadway, and between 3d and 4th streets, east of 3d avenue. With so much more candor as to prices exhibited in one quarter than in the other, it can be taken for granted that the speculative buying was greater, because investing buyers are less prone to announce the cost of their purchases and speculative buyers have a direct interest in getting good quotations made of record. It is, however, from the speculative buyer that building interests have most to expect, and the conclusions drawn from our table should at least satisfy the contractor and the material men, inasmuch as they convey promise of work ahead for them.

In distributing the amount borrowed on New York realty last quarter, some rather remarkable changes from the same time last year are discovered. To begin with, while in the period of last year $5,551,377 was borrowed below Chambers street, in that of this year only $552,539 was borrowed, without taking into account $1,000,000, the amount of a mortgage issued by the Wall and Cortlandt street Ferry Co. The amount placed between Chambers and Canal streets, while still moderate, was last quarter nearly double what it was in the corresponding quarter of last year, the figures being $1,855,282 and $963,578 respectively. Considerably less money was placed below 4th street and north of Canal, the several totals for the two quarters being, $4,768,546 for 1897, and $3,595,550 in the quarter now under review. It should be stated that the total of the mortgages for last quarter shows a large decline, it being $33,065,216 only, as compared with $43,818,821, after omitting mortgages to secure corporate bonds in both cases. But generally speaking, the loss is proportionately greater in the lower sections of the city. Last year a great deal of money was raised on down-town property for other purposes than for improvements; there was an active building movement north of Chambers street, another above Central Park and another in the 23d and 24th Wards, all of which contributed to swell the demand for money. This year has seen a slowing up in all these sections except probably the last, where, under the continued demand, building goes on as rapidly as ever. North of the Park and south of 125th street the mortgage loans of the past quarter were only two-thirds of what they were in the period of last year, and the loss here and that below Chambers street almost accounts for the total decline. The comparative figures for the section between Central Park and 125th street are $11,115,136 against $15,211.869. In the 23d and 24th Wards we have $5,044,294 to set against $4,689,559 for last year's quarter, and can, therefore, show a slight gain for this section. The gain is more than all made in the old wards, the addition of 1895 showing a loss of about $160,000.

BUILDING AND GROWTH IN POPULATION.

Last year, in September, the private sales' market began to experience a revival of activity which seemed to indicate that the reaction consequent on the panic of 1893 had spent its force. The revival continued to gather momentum, though slowly, until checked by the prospect of war. Hostilities having put a premature end to the season of 1897-'98, it was confidently expected that the season of 1898-'99, beginning with October, would witness a resumption of the interrupted activity. So far this expectation has not been realized. Sales have been almost wholly confined, as in the summer months, to private dwellings, and to vacant lots and old properties intended for improvement. In other words, purchases during the first half of October have been made chiefly for personal residential use or for speculation. It is true that purchases of this nature have been on the increase, and in so far indicate easier circumstances on the part of the class from which house buyers are recruited, as well as confidence in the immediate future on the part of professional operators. But purchases for investment have not only been fewer than during any two weeks in either September or October of last year, but have been extremely trifling in the aggregate, both as regards tenements, flats and apartments, on the one hand, and mercantile properties, on the other.

Now, there are only two possible explanations for the absence of the investor from the market at the present time. Either the money which last year appeared available for real estate investment has been temporarily diverted as a consequence of the war, or the earning capacity of improved real estate has been reduced by overbuilding to such an extent as to preclude a fair return on capital invested. If capital has been diverted, the diversion has been toward more profitable employment, with the result that the original sum, plus earnings, must presently seek the real estate market. If, on the contrary, the borough is overbuilt—we confine ourselves in this article to Manhattan—it may require years for real estate to recover its prestige for the purpose of investment.

To support the theory of overbuilding, it is urged that the financial effects of the war should now be over, attention is called to the large annual building statistics since 1893, and the significance of last season's comparative activity in investment properties is minimized. It is, of course, impossible, in the absence of detailed statistics of domestic business, to ascertain the precise relation of the increase of mercantile housing to the growth of commerce and the manufacturing industries, although several suggestive articles have appeared on this subject in the "Record and Guide." Whatever may have been the condition of supply and demand in respect of mercantile housing a year ago, the number of new business buildings undertaken during the past twelvemonth has been far below the normal average for the borough. However, the construction of dwelling houses, particularly of flats and tenements, has increased rather than diminished, and it is especially to this class of improvements that the theory of overbuilding applies.

The annual statistics for projected dwelling houses since 1893 certainly appear appalling to the critic who fails to study them

in connection with the growth of population. But, as a matter of fact, the increase in population has been greater than the increase in residential housing during that period. The following tables show the dwelling houses projected in the several sections of Manhattan from July 1, 1893, to July 1, 1898:—

It will be seen that the average cost of the apartments, flats and tenements, taken as a class, was something over $26,500. On the basis of this price we shall not be far wrong if we assume the typical structure of the class to have been a 5-story flat, with two families to the floor. Allowing, as is customary, five persons to the family, we obtain for each of the 4,499 apartments, flats, and tenements erected from July 1, 1893, to July 1, 1898, a housing capacity of 50 persons. It is true that the new tenements erected below 14th street have been mostly 6-story affairs, accommodating from 20 to 24 families. But as an offset, these tenements have almost invariably displaced older houses, besides which a very considerable number of old tenements have been torn down to make way for new school-houses, fully a dozen; small parks, including the Division street, Corlear's Hook, Houston street, Mulberry Bend, and St. John's parks; and warehouses and factories in the lower part of the city, particularly on the West Side. In fact, it is a question whether the new tenements below 14th street have done more than replace the housing facilities destroyed. Furthermore, many of the 5-story flats uptown are occupied as dwellings on four floors only, the ground floor being used for stores. It must also be remembered that many 5-story flats contain only one family on each floor. Fifty persons per apartment, flat and tenement, is, therefore, apparently a liberal estimate. The estimated capacity of private houses is one family of five persons for each. No allowance is made for servants, as they come from the tenement house population, and have been accounted for in the housing capacity accredited to that class of buildings. On this basis the apartments, flats, tenements and private dwellings erected on Manhattan Island from July 1, 1893, to July 1, 1898, contain a housing capacity of 235,940 persons, while the increase in population, as estimated by the Board of Health, has been 256,280 souls. The statistics relating to population have been obtained through the courtesy of Dr. Roger S. Tracy, registrar of records of the board, who stated that the estimated population on the former date was 1,655,475, and on the latter 1,911,755.

With so favorable a showing in regard to housing and population, the inference is unavoidable that the demoralization in rents and land values claimed in some quarters is also exaggerated, if not entirely unfounded.

PROPOSED BUILDING CODE.

The matter of the proposed building code was brought up again in the Board of Aldermen, at their meeting on Tuesday last, on a motion to approve a report of the Joint Committees on Railroads and Law, recommending that the President of the Council be "empowered and directed" to nominate a commission to prepare the code, consisting of one ironworker, one mason, one carpenter, one plumber, one architect, one civil engineer, one representative of the Board of Fire Underwriters, and a representative of the Corporation Counsel, ex-officio. Alderman Wafer moved that the matter be recommitted to the Joint Committees on Law, Public Buildings, Lighting and Supplies, and Public Health, with instructions to hold a public hearing thereon, and his motion was adopted.

In connection with the foregoing matter, Alderman Folks presented the following resolution:

Resolved, That the President of the Council and the President of the Board of Aldermen be and they are hereby authorized and directed to nominate for appointment by the Municipal Assembly, under the provisions of Section 647 of Chapter 378 of the Laws of 1897, a commission of nineteen members to be known as the Building Commission. Such Commission, when appointed, shall prepare and submit to the Municipal Assembly on or before its first regular meeting in the month of February, 1899, a code of ordinances providing for all matters concerning, affecting, or relating to the construction, alteration or removal of buildings or structures, erected or to be erected in the City of New York. Such Commission shall be constituted as follows: The Commissioner of Buildings for the Boroughs of Manhattan and The Bronx, the Commissioner of Buildings for the Borough of Brooklyn, the Commissioner of Buildings for the Boroughs of Queens and Richmond, the Chief of the Fire Department, one representative of the Corporation Counsel, the President and one other member of the Tenement House Commission, appointed pursuant to the provisions of Chapter 470, Laws of 1894, one representative of the Board of Fire Underwriters of the City of New York, such representative to be chosen from a list of three to be submitted by said Board, one civil engineer to be chosen from a list of three names to be submitted by the American Society of Civil Engineers, one sanitary engineer, two lawyers who shall have had special experience in the framing or interpretation of building laws, and one of whom shall be chosen from a list of three names to be submitted by the Association of the Bar of the City of New York, and one of them shall be chosen from a list of three names to be submitted by the Brooklyn Bar Association, two architects from the Boroughs of Manhattan and The Bronx, and one architect from the Borough of Richmond, said three architects to be chosen from a list of nine names to be submitted by the New York Chapter of the American Institute of Architects, two architects from the Boroughs of Brooklyn and Queens, to be selected from a list of six names to be submitted by the Brooklyn Chapter of the American Institute of Architects, and two men of at least five years' experience in the construction of modern fireproof buildings. The members of such Commission shall receive no compensation for their services and the said Commission shall cease to exist upon the adoption by the Municipal Assembly of a Building Code for the City of New York.

Which was referred to the Joint Committees on Law, Public Buildings, Lighting and Supplies, and Public Health, to which also was referred a brief minority report of the Committee on Law stating that, having examined the subject, they believed that the proposed resolution should be amended by adding the Commissioner of Buildings and the Deputy Commissioners of Buildings to said commission, and that the salary of such Commissioners, except said Commissioner of Buildings and his Deputies, should be fixed at the rate of $10 for each sitting.

WEST END ASSOCIATION.

The West End Association resumed its regular monthly meetings on the 3d inst., under the direction of Cyrus Clark. The resignation of Charles T. Wills was received and accepted. Among other business done, directions were given to the House Committee to look around for quieter quarters for the Association. Mr. Dobbs reported that, as adjacent property owners failed to support it, the movement to get the location of the public lavatory at Riverside Drive and 72d street changed had been abandoned. In the matter of the four tracks on Amsterdam avenue, Mr. McDonald reported that, since the last meeting of the Association, the Court of Appeals sustained the Railroad Commissioners and Supreme Court in refusing to reopen the case, and the Supreme Court refused railroad company a peremptory mandamus to compel city authorities to grant a permit, but granted an alternative writ, for which the company has not yet moved. A report was received that the smoke nuisance from the Hudson River railroad was being abated, and the thanks of the Association were tendered to Mr. McDonald for his successful efforts in this direction. A letter from James J. Phelan, relative to the damage being done to the Palisades, disorderly persons in parks and other places on West Side, reckless driving of delivery wagons, planting of trees in side streets was referred to Grievance Committee. A complaint of the bad condition of the sidewalk, northeast corner 85th street and Boulevard, was referred to the Local Improvement Committee.

CORRESPONDENCE.

KINGSBRIDGE'S WANT OF TRANSIT FACILITIES.

To the Editor of THE RECORD AND GUIDE:

Dear Sir: I have noticed several times in "The Herald," that it claims that through its efforts the "Kingsbridge road ditch" was filled in. That may all be true; but pray will you kindly tell me, through your valuable paper, what good "The Herald" has done for the residents and property owners who are compelled to walk long distances to reach the so-called "cattle cars" and pay two fares if they wish to go down town on the West Side; who also pay high assessments and still higher taxes, owing to the increased valuation placed on their property, while on the other hand the value of the property does not increase in proportion. The people on Washington Heights have long been sufferers for better railroad facilities, and what has been done? Simply nothing. In my estimation, if ex-Mayor Strong had been in office up to the present time, the underground railroad would have been under fair headway. Understand me well, I am not opposed to Mayor Van Wyck, still I think he has been the stumbling block in the way of the necessary relief of the whole population of Washington Heights and Inwood. Any one-horse town would have had relief long before this. Hoping you will assist us to procure some better means of transit,

Respectfully,

HENRY H. DREYER.

[Our correspondent must not take the "Herald's" estimate of its own influence and importance too seriously. The policy of claiming to have achieved everything is one that it adopts in common with at least two other journals of equal modesty. The North West Side has our fullest sympathy in its present abandoned condition, which cannot be disputed and which everyone interested in its material progress must regret. But though our correspondent may be right as to Mayor Strong's intentions in regard to, and Mayor Van Wyck's opposition to a rapid transit underground railroad, it is right to state that neither the one nor the other could have built the road under the changed debt conditions brought about by consolidation. In making a city with

one debt responsibility, the Legislature thereby made one without a margin for improvements While the old city had a large margin and a reserve of value to draw upon, the new one had none of the first and only the latter as it can be supplied by Manhattan and the Bronx through the process of "Equalization," that the Tax Assessors are now supposed to be applying. Our wish is and has always been to help Washington Heights to achieve its proper destiny and we hope the day will soon come when something practical can be done.—Editor Record and Guide.]

The Real Estate Market

Real Estate Market.

The characteristic feature of the private sales' market, which appears to improve as the month advances, continues to be the predominance of transactions in private dwellings, vacant lots, and old properties intended for improvement. The cause of this activity in residential property is fully accounted for in another column. No change has been noticeable in the market for investment property, which remains inconsiderable; sales under this head comprise only some half-dozen flats and several stores. It is encouraging to note, however, that the five 4-story brownstone dwellings, Nos. 21 to 29 East 76th street, scheduled to have been sold at foreclosure, were withdrawn in consequence of their private purchase by an investor. The transaction of the week which has attracted most attention was the purchase of three and a-half lots on the east side of 5th avenue, 50.5 north of 56th street, by W. W. Astor, from A. A., Robert E. and Frederick Bonner. This plot lies between other property owned by Mr. Astor and the Collis P. Huntington mansion. Originally the entire block front was owned by the Bonner brothers. At the time of the sale of the Huntington corner the Bonner brothers restricted the block front to residential purposes. This restriction runs out next year. Several attempts have been made of late to secure the site now purchased by Mr. Astor for hotel or mercantile purposes. It is Mr. Astor's intention to improve his purchase by the erection of residences similar to those which he already has on the 56th street corner, a measure necessary to preserve their exclusiveness. The total number of transactions reported below is 44, with considerations given in 12, amounting to $1,186,750. In this aggregate no account is taken of the 5th avenue and 16th street corner, the resale of which was reported by the Record and Guide at the time of Jacob D. Butler's original purchase. The corresponding figures for last week were 29, 14 and $1,588,500.

The following are the compartive tables for the New York Conveyances, Mortgages and Projectd Buildings for the corresponding weeks of 1898 and 1897:

The evidences of a revival of interest in the business of the auction room, which began to appear last week, have continued to multiply. The list of sales this week was large, including a substantial schedule of voluntary offerings, and the attendance, particularly on Wednesday, was all that could be desired. In the auctions at foreclosure a fair portion of the parcels went to other than the plaintiffs. The most conspicuous event among the foreclosure proceedings was the sale of the vacant plot, No. 634 Broadway, running through to Crosby street, conducted by Peter F. Meyer. The property was purchased by the plaintiffs, Lewis and Samuel Sachs, for $154,000. Messrs. Sachs, who bought the plot some three years ago, for $156,000, sold the property last year to Wm. H. C. Jackson and others, representing the Knickerbocker Improvement Co., with a building loan for $190,000. Of the 22 parcels voluntarily offered, eleven were actually sold, generally at fair prices, two were bid in, three withdrawn, and the rest adjourned to next week. There were no adjournments to dates beyond the coming week.

On Tuesday, October 18, as announced in our business pages, Richard V. Harnett will sell at auction in the Real Estate Salesroom, No. 434 Hudson street, a 4-story and basement brick tenement, with store; No. 243 East 33d street, a 4-story and basement brownstone dwelling, rented out in floors; No. 14 Lexington avenue, a 4-story and basement high-stoop brownstone dwelling, and Nos. 137 and 139 East 21st street, two 5-story English-basement brownstone dwellings, facing Grammercy Park. The combined site of the 21st street houses, forming a plot 40x98.9, is excellently adapted for reimprovement, as, for example, with an apartment hotel. Each parcel has appertaining to it a lot in Grammercy Park. On Thursday, October 20, Mr. Harnett will sell Nos. 3 and 5 King street, two 5-story and cellar brownstone flats, and No. 240 West 16th street, a 5-story brick flat, with store. These offerings possess investment qualities that ought to insure a good attendance and spirited bidding. For maps and particulars apply at the office of the auctioneer, Nos. 71 and 73 Liberty street.

Philip A. Smyth, as announced in our business pages, will sell at auction in the Real Estate Salesroom, on Wednesday, October 19, by order of the executors of David Hall, the following valuable 23d Ward properties: No. 370 Morris avenue, No. 369 College avenue, and No. 513 East 142d street, being the entire front on 142d street, from College to Morris avenue, with two 3-story frame buildings; No. 494 East 143d street, southeast corner of Morris avenue, a gore lot, 30.6½x66.10¾, with frame dwellings, and No. 498 East 143d street, adjoining, a lot 30x100½, with frame dwelling, fronting on Morris avenue. The sale being absolutely without reserve, and comprising some fine parcels in a notably progressive district, should prove exceptionally attractive. Maps and particulars may be obtained from the auctioneer, No. 11 Pine street.

Wm. Hall's Sons repeat their offer to dispose of their trim plant at the foot of 105th and 106th streets, and the East River. Thev make a definite and distinct offer of the chattels of the plant for $25,000, although, it is claimed, they could not be duplicated and put up for less than $70,000. The list, a very extensive one, will be found in our business pages, and this generous offer will no doubt meet with prompt response. The premises can be leased at reasonable terms for a long or short period, and engines, boilers, shafting, sprinklers and stationary fixtures will be sold separately if desired.

Gossip of the Week.

The purchase of Forest Park has been the subject of investigation by expert accountants acting for the City, who allege wrong-doing on the part of the agents of the late City of Brooklyn in securing options. The latter are charged with being interested in the Brooklyn Land and Improvement Co., the Union Land and Improvement Co. and the Brooklyn Hills Improvement Co., from whom a large tract was purchased, while in the pay of the city. The following tabular summary of this transaction is furnished in the accountants' report:

Date of purchase by Kings Co.	Grantors.	Cost of land—Kings County.	Cost of land—Syndicates or individuals.	Profits, syndicates or individuals.

REAL ESTATE NOTES.

Harry Chaffee is the buyer of the northeast corner of 5th avenue and 16th street, reported in our issue of Sept. 17.

Isaac Pick, the well-known livery stable keeper of East 105th street, is the latest acquisition to the long list of building loan operators.

Francis Schnugg is reported to have sold to M. Untermeyer the 7-story apartment house, 118.6x48.9, at the northeast corner of St. Nicholas avenue and 115th street.

Carl W. Kahnweiler, of No. 220 East 62d street, a retired real estate dealer, was killed last Wednesday night, by falling under the Second Avenue Elevated train, at the 65th street station.

The report that No. 89 5th avenue has been sold is denied, but it is admitted that negotiations for a sale are under way, and that the sale of No. 87, adjoining, to the same individual, is also under negotiation.

William F. Redmond, of the firm of Adrian H. Muller & Son, real estate brokers, is away on his annual fall outing. He is at present rusticating in Michigan, but before his return to New York, he will probably, as is usually his custom, pass a few weeks of leisure in the Blue Grass section of Kentucky, among the trotting-horse stock farms. He expects to return to New York about Nov. 1.

No. 634 Broadway, which was sold at foreclosure this week and bought by the plaintiff for $154,000, was bought by him about four years ago for $156,000. He sold it to the defendants in the foreclosure suit for $190,000, getting from them a bond of a Surety Co. for $25,000 guaranteeing the completion of a building. They also secured No. 632 adjoining by contract, giving as security for their contract a lease of the property which expires next February. No. 632 is held at about $160,000.

At the quarterly meeting of the Washington Heights Taxpayers' Association, this week, arrangements were made for the beginning of a vigorous agitation for better street railway facilities in that section. It was decided to hold weekly meetings while this agitation is pending, and to invite the public to attend. Another improvement which is to be urged is the building of electric elevators from the street surface at Eighth avenue and 155th street to the viaduct, which at present is reached by a long flight of stairs.

A meeting of the Real Estate Board of Brokers was held in the offices of S. F. Jayne & Co., No. 254 West 23d street, on Wednesday evening, at which a very large number of members was present. Numerous questions, relating to the interests of real estate brokers, not only members of the board, but brokers and agents at large, were brought up and discussed. The following resolutions of much interest to owners of real estate were passed: Resolved, That this Board recommends to the owners of real estate that not more than one sign containing one or more names be placed on property for sale or to rent. Resolved, That this Board recommends that when a member has knowledge that property is in the hands of another member, as agent, for sale or for rent, that negotiations for such property should be carried on only through the member who is the agent of the property. This recommendation is not to apply to vacant lots.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Pease & Elliman, who a year ago succeeded to the business of the long-established real estate office of Riker & Son, have scored the success it was then predicted that their extensive acquaintance, coupled with honest and intelligent work, would bring. Despite the dullness that has characterized the realty market during the past year, Pease & Elliman have done a very large business, selling and renting private houses in the 5th avenue district, as our "Gossip" column has shown. They have opened a downtown office at No. 31 Nassau street for the greater convenience of their constantly growing clientele, and have increased their staff and bettered their facilities in every way, to successfully attend to all business placed in their hands. Walter A. Pease, Jr., and Lawrence B. Elliman comprise the firm. N. W. Riker continues to be associated with the firm, whose office is No. 532 5th avenue, near 44th street.

Zimmermann Bros., real estate and insurance brokers, of No. 206 Broadway, and No. 309 West 117th street, near 8th avenue, transact a general real estate business; buying, selling and exchanging realty and negotiating mortgage loans, making a specialty, however, of the management of estates and collection of rents. Emil, Gustav and Fred'k Zimmermann—active and experienced workers—comprise the firm, and give constant and strict personal attention to all business intrusted to them.

Hopkins & Van Slyke, of No. 65 5th avenue, near 14th street, make a specialty of the rental and management of business property. An increasing clientele testifies to their successful work, and encourages them to still greater efforts. They also negotiate mortgage loans and place insurance in the best companies. J. Jordan Hopkins and E. Sheldon Van Slyke comprise the firm. Their telephone call is 2,433 18th street.

Edwin B. Willcox is a recruit in the army of experienced and hustling workers who make a business of real estate and insurance. His main office, at No. 503 5th avenue, northeast corner of 42d street, is well located, and he will handle real estate of all kinds and in every part of the world. He will also place insurance in any form and of all descriptions. Mr. Willcox is an active member of the Knickerbocker Athletic Club, and promises to be often heard of in connection with the successful negotiation of sales of improved and unimproved property. The downtown office of Mr. Willcox is at No. 59 Liberty street.

The Building Trades

MATERIAL MARKET.

BRICK.—Sixty-six barges of North Rivers came in this week, of which 63 were sold on arrival. Specials and high-grade commons sold at $5.50@6.00, and $6.50 is being asked. Pale are bringing $3.75 with extra grades going at $4.00. The good weather has enabled makers to continue work unusually late this season, and the mild and dry conditions that have prevailed have greatly favored the production of excellent brick. The demand being good, making will continue as long as the weather permits. The demand for New Jerseys continues very good, and the supply adequate. The market is moving well, with ordinaries selling at $6.00 and pales at $4.00, for best grades.

CEMENT.—The market this week in Portland, both imported and domestic, is as tight as ever, and the demand is greatly out of proportion to the output. There is little prospect of an easing of the market before the latter part of next month. The scarcity of Portland has, in some cases, occasioned the substitution of the finer grades of Rosendale, so that the demand for that cement has increased perceptibly during the past week, but there has not so far been any corresponding advance in prices, which are firm at last quotations.

LIME.—There is a good demand for State lime, with a fair supply. Prices are firm at 65c. for common, and 85@90c. for Jcinta. About 8 cargoes of Rockland arrived this week, of which the greater part was sold on arrival. All that is left is moving along easily. Prices are holding firm at last quotations. The demand is good and there is only a moderate supply on the way

NAILS.—There is still a shortage on certain sizes of cut nails. The demand is fair and prices hold firm at the advance made last week in cut nails of 3c. on wholesale lots, and 5c. on small lots New York stores.

OIL.—The conditions remain very much as they were last reported. Oil is still moving out in a satisfactory way for consumption. The local buying of seed for mill and export uses, keeps the market firm, notwithstanding the large receipts. Oil is firm in city at 35c. for 5-barrel lots and over of raw, and 36c. for single. Out-of-town oil is scarce.

LATH.—The demand is good. There are none on hand, and only 2 cargoes at most on the way; 300,000 arrived this week, and were sold for $1.70.

LUMBER.—The heavy storms in the region of Brunswick and Fernandina have impeded the sail shipments and there will be a scarcity for these for some time with a probable advance in price. The demand in general is seasonably fair, and prices are unchanged with the market running easy. During the past three weeks there has been an advance of about $2.00 per thousand feet on spruce, and another moderate advance is anticipated. The demand is very good.

HARDWOODS.—There is an increasing demand for poplar; white ash and brown ash are also in good demand. Prices are unchanged and the market is in good condition.

LEAD.—There is no change in prices. Trade is brisk in large and small lots.

GLASS.—Business is seasonably excellent, and prices are unchanged and firm at last reported quotations.

NAVAL STORES.—Trade in spirits of turpentine was quiet and mostly in jobbing parcels. Buyers are disposed to hold off, but holders have only moderate supplies on hand, and are likely to stand for an advance. The market closed firm at 32½c. for Southerns, and 33c. for regulars. There was a moderate inquiry for tar with small offerings. Prices firm at $1.95@2.00 for regulars and $3.75 for oil barrels. Pitch dull and steady at $1.85.

OF INTEREST TO THE BUILDING TRADES.

Wm. H. Holmes, inspector in the Department of Buildings, Boroughs of Manhattan and The Bronx.

George Francis Morse, architect, formerly with the Co-operative Plan Association, has opened an office at No. 141 Broadway.

Local and National President Malcolm, of the Master Plumbers' Association, is taking a fortnight's vacation in the Berkshires.

Edmund J. Bath, mason builder and general contractor, has removed his business from No. 508 East 87th street, to No. 619 East 134th street.

The Board of Education's pecuniary requirements for 1899 include $9,473,649 for sites, buildings and equipment. This amount is not part of the ordinary budget, but will be provided for by the issue of bonds.

It is reported that the Nestle Food Co. have decided to build a condensed milk plant on a site yet to be selected. It will include a brick mill, 100x200; Woodruff Leeming, No. 111 5th avenue, architect. Besides the architect, the representatives of the company are T. L. Leeming and A. E. White.

The Central Labor Union decided last Sunday to cease publishing the Labor Day "Souvenirs," which have brought into the union treasury between $800 and $900 a year for many years. The money was paid by whoever secured the privilege of producing the books, this person in turn relying for his profits upon whatever advertisements he could secure.

The appropriation asked by the Examining Board of Plumbers for 1899 is considerably less than the amount for 1898. The applicants for examination are at the present time for the greater part from the Boroughs of Richmond, Queens and the outlying districts of Brooklyn. The conditions in the plumbing trade have improved perceptibly during the past few weeks. The demand for workmen has increased to such an extent that there are few if any competent men unemployed at the present time.

John H. Shipway, senior member of the firm of John H. Shipway & Brother, importers and manufacturers of marble, who has been abroad for some time, arrived in this city on October 1 on the "Augusta Victoria." Whilst on the other side Mr. Shipway visited, among other places, Carrara and Sienna, where he made large special purchases of fine marbles. He also spent some time in Venice and the south of France, where he purchased large quantities of mosaics. He reports having had an uncommonly pleasant trip, and believes the outlook very encouraging for a brisk revival in trade in the near future. At present, the mammoth workshops of his firm, at 155th street and East River, are being tested to their capacity, owing to the many contracts which the firm have on hand.

The regular annual meeting of the New York Lumber Trade Association was held Wednesday in the board room of the Association, No. 18 Broadway. There was an exceptionally large number of members present. The purpose of the meeting was the election of officers for the ensuing year. Those chosen were: President, Chas. L. Adams, of Wilson, Adams & Co.; First Vice-President, Richard S. White, of John C. Orr & Co.; Second Vice-President, Wm. P. Youngs, of Wm. P. Youngs & Bro.; Treasurer, Chas. E. Pell, of Dannet & Pell; Secretary, Wm. R. Bell, Jr., of Bell Bros. Trustees elected for three years were: Chas. A. Meigs, John H. Ireland, T. T. Reid, Leroy Clark, E. H. Ogden, Thomas Williams, A. J. Newton, Russell Johnson, John F. Steeve and F. W. Starr. The Association includes among its members all the prominent lumber dealers in the city.

Thomas J. Brady, Commissioner of Buildings, has issued an official notice that, as canvassers are selling tickets for a ball, musical and literary entertainment on November 14, on the pretext that the proceeds are to be for the benefit of the employees of the Building Department, the public is warned that the entertainment is repudiated by the department.

As a memorial to the late Rev. Dr. George H. Houghton, who for many years up to the time of his death was rector at the Church of the Transfiguration, the vestry has decided to erect a tower and spire on the church in East 29th street. The addition, together with a cloister connecting the various entrances of the church with the sidewalk, will cost about $40,000, which is to be raised by subscription. The tower, executed in the English Perpendicular style, will be 17 feet square at the base, and to the top of the parapet will be 65 feet. At each corner there will be a spire, one larger than the others, and measuring 100 feet from the ground to the top of the cross which will surmount it. A set of tubular chimes will be placed in the new belfry. The plans are being prepared by Messrs. Parish and Schroeder, and the work will be begun in the early spring if the required amount is forthcoming. Already over $3,000 has been collected.

The work on the Park Row Syndicate has assumed a more active condition during the past few days. The strike of the marble helpers has been met by substituting union hod carriers. Mosaic floors are to be used in place of marble ones, the walls will be wainscoted with cement in place of tile, and other union electricians are taking the place of those that are now out. By these arrangements the strike of the several labor bodies will probably not delay the progress of the building any further.

TRADE NOTES.

GENERAL CONTRACTOR, MASON AND BUILDER.

Robert G. Kenny, general contractor, mason and builder, of No. 36 Union square, has lately completed the work of reconstructing the "Wilson" store and office building, No. 152 Broadway. He has also built a model six-story boarding stable on 133d street and 6th avenue, for H. Fenn. The stable will accommodate 250 horses and is up-to-date in every particular. Mr. Kenny also erected the Empire Laundry, at West and Clarkson streets, which is 150 feet in depth. He is now building five private houses in Long Island City, and will gladly furnish estimates for new buildings and the alteration of old ones.

ELECTRIC LIGHTING.

Florist Frederick Zahn, of No. 70 West 125th street, has profited greatly by introducing electric lighting, which shows his stock of rare plants and fine flowers to great advantage. Over one hundred incandescent lights were furnished and arranged by Wm. G. Cochrane, of No. 45 West 125th street, who is an expert electrical engineer and contractor. Mr. Cochrane is now at work on several contracts for Builder H. W. Powell, on West 144th street.

IMPROVING UPPER EIGHTH AVENUE.

Builder Hugo F. Hoefler this week topped out five of the handsome block of ten flats and stores, now underway on 8th avenue, between 149th and 150th streets. They are arranged for two families per floor, except the corner houses, which are laid out for three families. All modern improvements are provided, and the houses will be ready for occupancy after the holidays. Upper 8th avenue has been greatly benefited by the running of trolley cars and the asphalting of the roadway. Mr. Hoefler's block is only a short distance from two "L" stations.

A BUSY ARCHITECT.

John Hauser, of No. 1,441 Third avenue, is one of the very busiest men in his line. His clients include many of the most successful builders of flats and tenements, and his repeated commissions from the same builders speaks volumes as to his ability as a designer of modern houses. Some of Mr. Hauser's work includes the four handsome flats on the southeast corner of 7th avenue and 112th street, now being finished by Picken & Lilly; eighteen 4-story flats on Gouverneur Place and Vanderbilt avenue, for Builder August Jacob. These houses contain all improvements, and nine are ready for tenants. Four 5-story flats on 3d and Wendover avenues, in course of erection by Builder Louis Wirth, are from Mr. Hauser's plans, and the four improved 5-story 2-family flats, for which ground is now being broken at the southeast corner of Park avenue and 82d street, were planned by Mr. Hauser for Isaac Mayer. They will contain all improvements and be trimmed in hardwoods. For the same owner, Mr. Hauser has drawn plans for two 5-story 3-family houses on 100th street, east of Madison avenue. His telephone call is 340 B 79th street.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. OCTOBER 22, 1898. 1,537

EITHER a gold importing movement, or a heavy buying of grain in this market for foreign accounts, is apt to be accompanied by the selling of our securities from abroad. When both come together the selling is inevitable. This explains the present attitude of London toward our security market. It is brought about by the mechanical relations of the money to the security market, and does not indicate the possession of unfavorable opinions of the securities sold by the sellers. But it is one of the things that help to bring about reactions. Of late years we have always stood well under our securities, taking them easily when sent from abroad, but a return in continuous stream must have a more or less depressing effect, and when, as now, a natural reaction from unduly high prices is in progress, must assist and hasten such a movement. The condition of the money market abroad, to which reference is made in the succeeding paragraph will bear watching, as it will directly influence the volume of securities that will be returned here, and consequently the nature of the movements of our prices. The election canvass in this State is being watched with close attention from Wall Street, where there is not likely to be any disposition to organize or support movements to put up prices until the decision of the electorate is given on the issues raised.

WHEN, last December, Sir Michael Hicks-Beach uttered his threat of war unless the trade door was kept open in China, the world thought it meant something, because Sir Michael was supposed to be ultra-conservative, not merely in party, but by personal disposition also. As the "door" was shut in his face, and no war followed, of course, he lost credit as a bearer of defiance, and that fact explains why the security markets were so little affected by his bellicose speech of last Wednesday. The present British Government has shown itself so remarkably desirous of avoiding the resort to arms that the suspicion will arise that they know that France will withdraw Marchand from Fashoda, but want to have such credit as is to be obtained among jingoistics for browbeating. The markets become nervous, not so much because they are deceived by this simulation of fierceness, as because they know it is a dangerous game to play. The point of safety in the game for the British Government is probably, that the attention of France will soon be directed toward German ambition in Syria, a country that France has for a century looked upon as destined, sooner or later, to be her own prey. The German Emperor is not making a merely histrionic visit to the Sultan and to the Holy Land; nor is his journey inspired by purely religious sentiment, any more than was his action in China last winter. There is a worldly policy underlying it all, and that is the strengthening of the German influence and enterprise in Turkey's Eastern dominions, and later in Persia. This is a movement that Great Britain is likely to favor in exchange for German support in Egypt, and because she would not object to see Russia occupied by a rival at Teheran, and, consequently, less able to act at Candahar, or to keep her gigantic shadow threatening northwest India. If such is the wish of the two Powers, Germany can eventually occupy Southwestern Asia, while Great Britain retains Egypt permanently, and is strengthened for further action in the Far East. Whatever may be the actual outcome of current political happenings, it is easy to see that the world has not been so satisfactorily divided up that any of the great Powers can go to sleep on their gains, and if we wish we can have a scare almost every week of our lives, because the opposing parties are likely to come into at least diplomatic conflict as often as that, so extended are the lines of influence and so numerous the points of possible conflict. Notwithstanding their prominence, politics are less responsible for the nervousness of the European markets, than the growing scarcity of money. The great and general industrial activity has made large demands for some years on supplies of money, and their supplement by the autumn requirements, mainly agricultural, has drawn attention to the extent to which capital has been absorbed. All the great national banks have recently increased their discount rates, and as corporate securities benefited by the plethora of money in times of industrial and commercial depression, they must be expected to suffer now that capital has been drawn, and continues to be drawn, away into its most legitimate channels of use.

THE STOCK EXCHANGE'S PURCHASE.

INTERESTING as the purchase by the New York Stock Exchange of the Western Union Building, on Broad street, is in a general way, it is particularly so as an opinion, from competent sources, of the stability of realty values in this city at a time when a good deal of doubt, unreasonably, we think, seems to prevail on that subject. The facts relating to the purchase are given in our usual column for such matters. Here it may be of service to point out how the opinion mentioned may be inferred. This purchase embraces a comparatively modern building and a plot of land 47.1x82x50.4x87.3, or 4,122 square feet. The purchase price is reported at $825,000. The building was originally estimated to cost $125,000; the actual cost was probably a good deal more, and it is fair to assume that its value now is equal to the estimated cost. If this is so, it would leave $700,000 as the price paid for the land, or $169,82 per square foot. The first impulse is to compare this with the square footage price, $330.70, paid for the southwest corner of Broad and Wall streets; but a moment's consideration will show that this comparison is not a fair one. The corner in question was a small one, 508 square feet, bought to square out a plot of considerable extent previously acquired by the buyer, to whom it possessed an unusual value, he being desirous of erecting a large office building—afterwards built, and now known as the Wilks Building—which, without this small parcel, would have been deprived of its most valuable part for renting purposes. The Wilks Building occupies, however, a plot of 5,527½ square feet, which, purchased in four pieces, cost altogether $899,000, or at the rate of $162.64 per square foot. It is fairer to compare the Stock Exchange's purchase with the Wilks purchase as a whole, and it will be seen that the differing degrees of desirability of the two parcels being considered, the result directly favors the idea that land values in Manhattan continue to increase.

A still more equitable comparison is furnished by the Commercial Cable Co.'s purchase of 1895. This is an irregular plot of 7,536 square feet, having frontages on both Broad and New streets, immediately adjoining the Stock Exchange's purchase on the south, which, however, fronts only on one street, and both are interior plots. In points of area and frontages, the Cable Co.'s plot has superiority, yet its per square foot price was only $149.22, as against $169.82 for this week's purchase. It was reported at the time of the purchase that payment was largely in stock of the Cable Company. By this comparison, we have an advance of $20.60 per square foot in three years, with the earlier a stock and the later a cash transaction.

It may be said that the purchase was necessary to the Stock Exchange; because, if that institution is to spread, it must be in a southerly direction, growth northerly being forbidden by two large modern office buildings. This overlooks modern opportunity to spread aerially by means of steel construction. Whether contrasted with the Wilks' purchase, or the Cable Company's, the transaction allows of deductions favorable to realty values. In considering this purchase, its investment phase must not be overlooked. The ground rent paid by the Western Union Company is $32,000 a year; consequently, the Stock Exchange will receive nearly 4% per annum on their investment, so long as the lease runs, which is until 1903, and at the end of that time will be in a position to secure even a larger return. As a matter of fact, at the end of their term the Telegraph Company will have paid in rentals and in the cost of the building they put up nearly as much for the twenty-one years' use as the Stock Exchange now pays for the fee. Doubtless, the returns on the building to the Telegraph Company give them a profit, and allow the formation of a sinking fund for the building. If these inferences are correct, and there is no reason for supposing they are not, they tend to reveal the reasons that have made downtown office building so attractive a form of investment for some years up to the present one.

To what we have said may be added this: The Stock Exchange's purchase is especially a satisfactory one, in view of the fact that it was made by a body of shrewd business men on the best of technical advice. Not only will this transaction directly benefit the district it occurred in, but the indirect benefit to the realty market will be very considerable, in affording that striking and imposing transaction without which no season is considered a good one. There is a good deal of sentiment in this idea, but something practical also. The little people, who have no means of forming a judgment, or who think they have none, generally

wait for the big ones, who, they think, can survey the situation more keenly and accurately, and on whose judgment they, therefore, rely, to act before making their own more modest movements. For this reason it is not unlikely that the Stock Exchange's purchase will influence many others, both large and small.

AS we have continuously claimed that this city must at all costs be protected from the smoke nuisance, it is with the greatest satisfaction that we learn of the vigorous action of the Health Board toward violators of the ordinance which forbids the befoulment of the air by murky and disagreeable emissions from smoke stacks. The Board should be supported in every way possible in this work. The arrest of the president of the N. Y. Steam Company, which was a notorious and obstinate offender against the smoke laws and ordinances, some years ago, very promptly brought him to a proper sense of the error of his ways, and the recent indictment of another superior official in a like case will now most probably "cure" his chimney of smoking before trial is had. The Health Board is right in prosecuting the responsible officer of the offending company, instead of an inferior employee, whose irresponsibility and ignorance of the law would appeal to the sympathies, as well as to the sense of justice, of a judge or jury. With a case proved against a responsible man they cannot do otherwise than convict and punish. One conviction followed by a penalty would have a wonderfully deterring effect.

THE Supreme Court rule requiring that notices of sale of real property in foreclosure, shall be preceded by a diagram showing the location of the property, and contain a statement of the taxes, assessments and other liens on the parcel to be sold, is evidently misunderstood in some quarters. This week a parcel was sold according to order of court, and it is claimed by people, who ought to know better, that the sale is invalid, because the diagram affixed to the legal notice was incorrect, although that published on the usual auctioneer's bill of the sale was without error. The rule in question, which is known as Supreme Court Rule No. 14, was framed so that minor errors, unintentionally made, should not nullify a costly legal proceeding. It contains this proviso: "An unintentional error, however, in such diagram, or in the amount of the lien or charge for which the property shall be sold, or the amount of such taxes or other lien to be allowed to the purchaser upon the sale, shall not invalidate the sale, nor authorize the court to relieve the purchaser or order a new sale." In the case in point, any charge of intention could be met by the correctness of the auctioneer's diagram, which was exhibited at the sale itself.

WINTER is coming, and Elm street will be an impassable quagmire almost from one end to another for months, unless the work of grading and paving is rushed. A thought of the injury this will do to the property owners along the line of that thoroughfare, as well as the strong arguments presented in the resolution of the Directors of the Real Estate Exchange and Auction Room, Ld., ought to induce the city government to devise ways and means of putting the street into good shape before the inclement season begins. At present the property owner has only increased tax assessments on inaccessible premises to thank the authorities for, and these are not calculated to increase his affection for the powers that be. The case of the people, who cannot obtain payment for the land taken for the widening of Elm street, is actually too hard for ordinary comment.

ELM STREET.

At a regular monthly meeting of the Board of Directors of The Real Estate Exchange and Auction Room, Limited, the following preambles and resolution were adopted and a copy was forwarded to Mayor Van Wyck:

Whereas after years of agitation and as a work of public necessity, owing to the crowded condition of traffic on Broadway, condemnation proceedings were instituted to acquire property for the widening and extension of Elm street, and

Whereas the Commissioners who were duly appointed to appraise the value of the property taken for said improvement, have some time since made their awards, and the City has entered into possession by virtue of the law in such proceedings, and the awards thus made have not been paid by the City, thus causing great hardship and embarrassment to the former owners, and

Whereas owners of property abutting on said street as extended and widened, have in many instances constructed new buildings and reconstructed old buildings facing on said improved street, are to-day without access to said buildings, owing to the unfinished condition of said thoroughfare, thus causing great loss to them,

Resolved, That we, the members of the Board of Directors of the Real Estate Exchange and Auction Room, Limited, urge upon the city authorities the immediate completion of said thoroughfare, and the adoption of such measures as may be necessary to afford relief to those persons to whom awards have been made, and facilities of access to the property now facing thereon.

THE ALLEGED OVERSUPPLY OF RESIDENTIAL HOUSING.

The assertion is frequently made that there is a large oversupply of residential housing in Manhattan, particularly of flats, say north of 59th street, so that in some parts of the borough rents are actually dictated by the tenants. Despite the warning of disaster implied in this reiterated assertion speculative building continues, the purchase of residential housing, including flats for investment, remains a conspicuous feature of the private sales' market, and the foreclosures of flats and tenements as well as private dwellings diminish. It is impossible to reconcile these circumstances with the theory of excessive overbuilding. Nevertheless, the Record and Guide, last week, took pains to show by statistical proof that the increase in population since the panic of 1893 has been about 8 per cent. larger than the increase in housing capacity furnished by new apartments, flats, tenements and private dwellings. However, although population has grown more rapidly than housing since the panic year, for reasons which will be adverted to later, the claim of an abnormally large proportion of vacant to occupied housing, particularly in respect of flats, might nevertheless be true. The only means of verifying or disproving this claim is a physical examination.

The charge of overbuilding, if well founded, would apply with special force to the section immediately north of Central Park, between 110th and 125th streets and Morningside and Park avenues. In this district 744 flats, mostly 5-story buildings, and 209 dwellings have been erected during the past four years, representing a housing capacity, according to the method of calculation employed last week, of 38,245 souls. In looking for vacant housing, one would naturally turn to this district. One of the newest streets in this district—certainly one in which the to-let signs appear very numerous—is 114th street. Yet of the 945 flats (i. e. suites of rooms) in this street, between 8th and Madison avenues, only 101, or 10.68 per cent. are unoccupied. These flats, with trifling, if any, exceptions, are new. The suggestion may be made that they have been filled at the expense of older flats. But of the 709 flats in the same street, between Madison and 1st avenues, mostly, if not all, old, only 87, or 12.27 per cent. are vacant. In 112th street, between 5th and 8th avenues, in 243 flats, mostly brand new, 37 vacancies were found (15 per cent). Nineteen of these, however, are confined to one row of 50 flats, which raises the suspicion that there is something abnormal about either the management or the condition of the house, which is only one year old, or that rents are held too high for the neighborhood. Excepting this one property, the proportion of vacancies falls to 9 per cent. In the same street, between 2d and 3d avenues, out of 68 old flats 4 are vacant. The south side of this block is occupied by private dwellings, all of which are tenanted. In 103d street, between Park and Lexington avenues, there are only private houses, all of which are rented; in the same street, between Lexington and 3d, and Park and Madison avenues, of 359 flats 31 are empty (8 per cent.). In 137th street, off 7th avenue, of 154 flats, 11 are unoccupied. In 7th avenue, between 137th and 136th streets, out of a row of 58 brand new flats all but 11 are rented, while in the block from 136th to 135th streets there is practically nothing to let.

In no other streets, or, rather, parts of streets, canvassed by the Record and Guide north of 59th street and south of 140th, did the percentage of vacancies exceed the average for those given above. The avenues, with the one exception of 3d avenue, were found to be sufficiently well tenanted, both as regards flats and stores, to leave no reasonable room for complaint. The decadence of this historic thoroughfare, as has been pointed out in these columns, is due primarily to recent changes in surface transportation, and that the cause is purely local is evidenced by the fact that both Lexington and 2d avenues are well tenanted, while 1st avenue is exceptionally so. In the case of tenements, apartments and private dwellings, no house-to-house census was undertaken. But inquiry among agents in a large way of business confirmed the impression incidentally obtained in canvassing flats that the demand for apartments and private dwellings is larger, in proportion to supply, than that for flats, while tenements, especially on the lower East Side, are exceptionally well filled at good rentals.

It has been found that, in the case of the least desirable flats in the least favored street, omitting one very evidently abnormal building, the percentage of vacancies does not exceed 12.27, the average proportion of vacancy for all the flats (2,324) canvassed in the new district north of the park, as well as the adjacent old districts, being 11.60 per cent. As it is usual for investors to make their calculations on the basis of a permanent vacancy of 20 per cent., it follows that residential housing on Manhattan Island, including flats, must afford, at least, a normal margin of profit. It will probably not be denied that even under ordinary and unquestionably favorable circumstances the tendency of speculative building is to maintain a supply of housing in excess of the actual needs of the population. However, the question naturally arises, If the increase in population since 1893 is greater than the capacity of the housing erected since that year, why should there be any vacancies at all at the present time? The answer is twofold. On the one hand, during the lean years following the panic tenants have resorted extensively to the practice of "doubling-up;" on the other, there was undoubtedly some—perhaps a considerable—oversupply of housing when the crisis broke. The most active decade in the history

of New York building was that which immediately preceded the panic. This short period witnessed the creation of the West Side above 59th street, and the large part of the East Side above 86th street.

The sum and substance of the inquiry, statistical and physical, made by the Record and Guide, is that the supply of housing at the present time, considered in relation to the demand, is pretty nearly normal—so nearly so as to be consistent with the interests of tenants and landlords as well.

RIO GRANDE WESTERN DIVIDEND.

A dividend of three-fourths of one per cent has been declared on the preferred stock of the Rio Grande Western Railway Co., payable 5th prox. Particulars will be found in our advertising pages. This indicates the attainment of a point in the progress of this company that must be very gratifying both to manager and owners.

LOVE AND AFFECTION AND TAXES.

Charles H. Treat, Collector of Internal Revenue for the First District of New York, has received a letter from J. W. Wilson, Deputy Commissioner of Internal Revenue at Washington, of which the following is a copy. It should be added to the summary of war-tax decisions, published in the Record and Guide of September 3, 1896:

This office is in receipt of a letter from Wm. K. Gilchrist, Temple Court, No. 9 Beekman street, New York, under date of Aug. 2, 1898.

This gentleman desires to be informed whether there is any stamp tax imposed on a deed of land made by a husband to his wife where the nominal consideration is $1.00, and the actual consideration is love and affection.

You will inform this gentleman that by the advice of the Attorney-General, this office holds that the words of purchase in the paragraph relating to conveyances includes all changes of title except those occurring by descent or operation of law. The instruments that vest title are subject to taxation, and if it is where the consideration is love and affection, they should be taxed according to the actual value of the property conveyed and vested. If, in this instance, it requires two deeds to complete this transaction, both deeds are subject to taxation..

The Real Estate Market

Real Estate Market.

The steadily growing volume of transactions noted in the private sales' market during the present month appears to indicate a permanent improvement in the real estate business, although the sales this week, as in the two immediately preceding, have been confined chiefly to private dwellings, vacant lots, and old properties intended for reimprovement. The leading events of the week, of course, are the sale to a firm of building loan operators of the block front on Central Park West, between 92d and 93d streets (bought three years ago by the Woman's Hospital for a hospital site) and the purchase of Nos. 16 and 18 Broad street by the New York Stock Exchange. The former transaction, for obvious reasons, is certain to have a beneficial influence on neighboring property. The latter transaction makes assurance doubly sure that the Exchange intends to abide in its present location. The idea of removing the Exchange has perhaps not been seriously considered at the present time, but it is only fourteen years since the Exchange advertised for a site for a new building within the district bounded by State, Pearl, Duane and Church streets; indeed, at that time a northward extension of the city's financial section was considered inevitable. It is doubtful whether the influence which the Exchange exercises on the value of adjacent land is capable of precise analysis. But that that influence partakes of a monopoly character is evident. This week's purchase commanded $169.82 per sq. ft., while a plot of 14,000 square feet on the same side of the street, running through to New street, just one block away, namely, between Exchange pl. and Beaver st., may be bought at $70 per square foot. The highest price ever known to have been paid for land in New York City is $348.67 per square foot, the price paid in 1872 for 717 square feet on the southeast corner of Broad and Wall streets, which forms part of the site of the Drexel Building, the next highest being $330.70 per square foot paid in 1882 for a smaller piece on the southwest corner, forming part of the site of the Wilks Building. However, these were abnormal prices dictated by exigencies incident to the construction of the particular buildings in question. On the other hand, this week's purchase was made under normal conditions, and indicates with certainty that values in the financial district are more than maintaining the high level established on the introduction of the era of improved transit, the elevator and steel construction. The total number of transactions given below is 71, with considerations accompanying 22 and amounting to $2,540,425; corresponding figures for last week were 44, 12 and $1,186,750, respectively.

The list of offerings at auction this week, though, on the whole, rather mediocre in quality, contained a sufficient number of desirable parcels to attract a good attendance at the Salesroom on Tuesday, Wednesday and Thursday. In the attendance, however, the professional element was strongly predominant, with the result that there was little market for any but properties of unquestioned earning capacity, either immediate or on condition of reimprovement. The lot at No. 64 St. Marks place, with old building, and the southeast corner of Orchard and Broome streets, 22.9 x60, with a 3-story brick tenement and stores, sold in partition by William Kennelly, brought $20,500 and $24,250, respectively—very good prices. The 2-story brick tenement at No. 40 Rivington street, sold in partition by Strong & Ireland, brought an equally good price, namely, $20,700. No. 28 East 13th street, a 4-story brick dwelling, sold in partition by William Kennelly, was remarkable chiefly for the fact that it elicited 85 bids before it was knocked down at $12,050 to a party interested in adjoining property. While property in the East Side tenement district was in excellent demand, other voluntary offerings received little attention. In the executors' sale by Philip A. Smyth, of Nos. 494 and 498 East 143d street, and No. 370 College avenue, the first two parcels went at such low prices that the sale of the third was adjourned to November 3. In the voluntary sale of the vacant plot, 53.3x45.10 x50x34.4 on the northeast corner of 3d avenue and 135th street, the 3-story stone front dwelling No. 255 West 54th street, and the 5-story brownstone apartment house, No. 327 West 59th street, the last two were bid in and the first withdrawn. Of the foreclosure sales, probably owing to the character of the offerings, a smaller proportion of the parcels went to outsiders this week than last. The following withdrawals and adjournments to dates beyond the coming week are to be noted: No. 545 East 147th street, William M. Ryan, auctioneer, withdrawn; the vacant land scheduled for sale by H. C. Mapes in Westchester avenue and Levere place, adjourned sine die; No. 240 West 16th street, Richard V. Harnett, auctioneer, adjourned to November 2; and the vacant plot on the Boulevard, near 122d street, scheduled to have been sold by Bryan L. Kennelly, adjourned to November 10.

Richard V. Harnett, as announced in our business pages, will sell at auction on Wednesday, October 26, the 4-story dwelling, No. 32 West 75th street. Maps and particulars may be obtained at the office of the auctioneer, Nos. 71 and 73 Liberty street.

Bryan L. Kennelly, as announced in our business pages, will sell on Wednesday, October 26, by order of the executors of the estate of Herman Mischo, the 5-story stone front double tenement on the northeast corner of 114th street and 3d avenue, N. Y. City, and two 5-story brick and stone front flats at Nos. 318 and 320 Washington street, Hoboken, N. J. Both these properties have desirable qualities and ought to command attention therefor. For maps and particulars apply to Hugo Cohn, No. 19 Avenue A, attorney for the estate, and at the office of the auctioneer, No. 66 Liberty street.

William Cole will sell on Thursday next the block front, 400x100, on North 11th street, between Roebling street and Driggs avenue, Brooklyn, and now occupied by a number of sheds. Notice of the sale will be found in our advertising pages.

Gossip of the Week

SOUTH OF 59TH STREET.

Broad street, Nos. 16-18, 9-story brick office building, 47.1x 82x50.4x87.3; sellers, estate of Julia Bedell and the Beninger estate; buyers, New York Stock Exchange; broker, Samuel Frothingham; price, $825,000. The Western Union Telegraph Co. is now in possession, they having erected the building standing here in 1883, under a lease for twenty-one years, at $32,000 a year, made in 1882. This lease expires in 1903, when the building reverts to the owner of the fee. The building was erected at an estimated cost of $125,000, which, deducted from the stated selling price, leaves $700,000 for the plot which contains 4,122 square feet, or at the rate of $169.82 per square foot. The southwest corner of Wall and Broad streets, the plot upon which the Wilks Building was erected, was bought by Mr. Wilks in four parcels, the first, January 22, 1876, Nos. 19 Wall and 4-6 Broad street, containing 2,560 square feet, for $285,000, or $111.33 per square foot; the second, June 20, 1882, No. 21 Wall, southwest corner of Broad street, containing 508 square feet, for $168,000, or $330.70 per square foot; the third, April 22, 1884, No. 15 Wall street, containing 1,069½ square feet, for $300,000, or $280.50 per square foot; the fourth, No. 17 Wall street, containing 1,390 square feet, for $146,000, or $105.03 per square foot. These four plots contain 5,527½ square feet, for which Mr. Wilks paid $899,000, or $162.64 per square foot. Leaving out the corner, for which Mr. Wilks paid $330,70 per square foot, it will be seen that the price for the inside plot, containing 5,019 square feet, cost the buyer $731,000, or $145.64 per square foot, to compare with $169.82 paid by the New York Stock Exchange for the plot just bought by them.

Fourth avenue, southeast corner of Warren street. See Lexing avenue, northwest corner of 118th street, N. Y. City.

McNulty & Fitzgerald have sold to the Wood, Harmon & Company Real Estate Association, of Boston, a tract of about 100 acres, on Coney Island avenue, between Avenues M and O and East 10 and East 16th streets.

The heirs of William Furman have sold a plot of almost six acres, having a frontage on Newtown Creek of about 700 feet, and includes the land under water and adjacent to the premises, which were granted to Gerrit Furman, the grandfather of the present Gerrit Furman, long ago by the State of New York.

OUT OF TOWN.

W. F. & C. H. Smith have sold for Leith & Glenn, a plot, 190x140 at 34th street and Avenue C., Bayonne, N. J., for $15,000.

James L. Brumley, the well-known auctioneer, conducted the sale of the lot holdings of the estate of C. F. A. Hinrichs, at Watsessing, N. J., on Saturday last. The auctioneer informs us that there was a good attendance, and he succeeded in disposing of all the 113 lots offered, at good prices.

REAL ESTATE NOTES.

The report that No. 3 East 41st has been sold at about $60,000, is denied by the owner.

William Seeligsberg was the broker in the sale of Nos. 621-627 East 9th street, mentioned in our last issue.

Carl E. Randrup reports that he has sold for Philip Kahn, a thirty acre farm at Rockville, Conn., the northwest corner of Avenue D and 8th street, Unionport, this city, being taken in part payment.

In answer to a request from a committee from Queens, urging an appropriation in the budget for a bridge across the East River, with piers on Blackwell's Island, the Mayor replied that it was impossible to further burden the tax levy for the coming year.

O. H. P. Belmont has given up the idea of building on the plot he purchased last year, on the southeast corner of 5th avenue and 77th street, and has given it to De Blois & Eldridge to sell. He has rented No. 677 5th avenue for a number of years, through H. S. Ely & Co., and De Blois & Eldridge.

The Realty Corporation, of North America, organized by S. Q. Mingle, No. 22 East 42d street, and incorporated under the laws of the State of New York, with a capital stock of $600,000, has bought of Mr. Mingle et al., Yonkers Park and about 100 acres adjoining, which latter parcel will receive the name of Hollywood. A hotel, to cost about $25,000, will be erected in the spring, and other improvements undertaken. The directors of the company, whose offices are at No. 22 East 42d street, are: George M. Hard, pres.; T. Elwood Carpenter, S. Q. Mingle, vice-pres.; Edward Thompson, A. H. Gilbert, treas.; W. R. Watson, sec. and general manager; and A. Sanders.

At the public hearing given Wednesday by the Aldermanic Committee on Parks, on the proposition to lay out a small park bounded by Houston, Elizabeth, Prince and Mott streets, Frank A. Ferris and George J. Stier, owners in the block, were heard in opposition. They claimed that the block mentioned would be very expensive, costing at least $1,000,000, and that a park was not needed at this point. The hearing was adjourned for a week, until Wednesday next at 1 p. m. The promoters of the park were not present, nor did it transpire who they were. It was stated that the authorities of St. Patrick's R. C. Church, and of the orphanage and school nearby, favored the proposition. Further it may be stated that Senator Sullivan introduced a bill into the last Legislature to lay out this park, but the bill was withdrawn on its being represented that the charter had, the previous year, conferred the power to lay out parks in the city of New York on the Municipal Assembly. The matter was brought up in the Board of Aldremen and the Committee on Parks directed to make an inquiry as to its necessity, etc. The block is not among those selected by Mayor Strong's Committee on Small Parks as suitable for conversion to recreative uses. The impression is that the Committee will make an adverse report.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

The long-established and successful firm of J. N. Kalley & Son, of 150 Broadway, New York, and 189 Montague st., Brooklyn, continue to make a specialty of negotiating exchanges of property. Their list of business parcels to exchange for houses, is very complete, and they will be glad to hear from interested persons.

Col. J. Hamilton Hunt has removed his office from the Boulevard to No. 207 West 81st street, corner of Amsterdam avenue. He is now offering for sale and rent some choice bargains in West Side properties. Col. Hunt is an active member of the Real Estate Board of Brokers.

Paul Mayer, of No. 251 West 135th street, corner of 8th avenue, is one of the most successful brokers and agents on the upper West Side. Some of his latest sales are mentioned in our "Gossip" columns to-day. Mr. Mayer has charge of a number of estates, and his services as appraiser are frequently called for by some of the leading law firms who do a realty business.

Jesse C. Bennett & Co., the well-known brokers, appraisers and agents, of No. 338 Columbus avenue, corner of 76th street, have for the greater convenience of their numerous clients, among the real estate and building fraternity, opened an office on Washington Heights, at No. 1740 Amsterdam avenue, corner of 146th street. The branch office is like the main office on Columbus avenue, thoroughly up-to-date in furnishings, fittings and active and intelligent workers.

Leitner & Marks are active and successful brokers and agents with well-equipped headquarters at the southeast corner of 3d and Wendover avenues, a district which is the scene of great activity in selling and building. They have for sale improved and unimproved properties at figures which afford excellent opportunities for speculators and investors. Their branch office is located at 156th street and Westchester avenue. Both offices have telephones, Nos. 139 Tremont and 155 Melrose, respectively.

Henry D. Mills, late of the firm of Hunt & Mills, continues business at the old stand, No. 211 Boulevard, Sherman square. His specialty is West Side real estate.

PROPOSED BUILDING CODE.

The Aldermanic Joint Committees on Law, Public Buildings, Lighting and Supplies and Health gave a public hearing yesterday on the proposal to appoint a Commission to prepare a building code for this city. There was a large representation from building and other interested organizations and suggestions were received from Wm. J .Fryer, on behalf of a large number of building associations; Geo. B. Post, President of the Architectural League; F. De Coppet Berg, Richard Watson Gilder, John Car-

rere, President of the New York Chapter of the American Institute of Architects; James M. McGregor and others. The Committee took the suggestions under advisement and will report to the Board in due course.

MATERIAL MARKET.

BRICK.—Sixty-two barges of North Rivers came in this week and 61 were disposed of, showing a good demand. The quality is running good and more brick are being shipped than are made. Specials, first grade commons and commons are running close together at prices ranging from $5.75 to $6.00, occasional off loads going at less. Pale are selling at $4.00. The season for making is about over, owing to rains and cold weather, and will probably close finally before another week. Stock piled on New York docks is much less than last year, which in turn was less than the previous year. Stocks at points of manufacture are believed to be somewhat less than at this time last year. There is no material change in New Jerseys this week. The demand is good and the market firm.

LIME.—Eight cargoes of Rockland came in this week and are pretty well sold out. Freights and the cost of barrels have advanced, and, although prices are at present firm and unchanged, there is a strong possibility of a moderate advance in the near future. The demand for State lime continues good, as is also the supply. Prices are: Common, 70c., and Jointa 90c., with a firm market.

CEMENT.—The conditions in Domestic and Imported Portland are unchanged from last week. The season is getting short and there is no prospect of a change now. The demand for Rosendale is on the increase, and prices are ranging from 60c. to 75c., with the market holding very firm.

LATH.—Of lath, 3,000,000 came in this week, and were sold at prices ranging from $1.65 to $1.75. The demand is fairly good. There are none on hand and very few on the way.

OIL.—Seed has gone up 5c. a bushel and 96c. is now the price at Chicago. City oil is firm at 36c. for raw, in single barrel lots, and 35c. for five barrels and over. Out-of-town oil has advanced. Crushers have sold freely and are now asking 34@35c. for large lots, raw. The demand continues good, the oil going into consumption so that no stock is accumulating on the hands of the crushers.

NAILS.—Prices are slightly easier than last week. The demand is quite fair, and the scarcity in cut nails is about over. The mills are running full time, and the feeling is prevalent among the trade that prices in wire nails will be reaffirmed at the next monthly meeting of the manufacturers, which has been postponed until October 25.

LEAD.—Prices are unchanged and business is seasonably good in both large and small lots. All the factors of the market tend toward strength.

LUMBER.—The business in Yellow Pine for the past month has been exceedingly light, with little change in prices. Prices on certain sizes of North Carolina have advanced, but the local demand is light. The export demand has improved. White Pine is in good demand and prices are holding firm, and a good trade is reasonably expected. Spruce is in good demand with prices steady. Prices will probably advance on West Virginia Spruce, for which there is a good inquiry. Poplar is a large commodity in the market and is bringing good prices. Quartered oak and ash are in good demand and show a tendency to advance. Plain oak is being taken extensively and brings good prices. The market for mahogany and block birch is good with prices on a good basis.

GLASS.—Prices are firm and unchanged at 80 for Plate and 80-20 for window. Business is brisk, and the market in firm condition.

NAVAL STORES.—The inquiry for spirits of turpentine is seasonably fair, but is mostly in small lots, large consumers being disposed to hold off since the recent advance in prices. Values have been moving up steadily during the past week and holders generally are asking 35½ c. with 36 being occasionally demanded. The features of the market are light stocks at all points and good export from South. The market closed firm at 35 c. for Southern and 35½ c. for machines. Tar was quiet with light inquiries and prices firm at $1.80@1.85 for regulars and $3.70@3.75 for oil barrels. Pitch was neglected at $1.60@1.65.

OF INTEREST TO THE BUILDING TRADES

John Little, of 1196 3d avenue, has been elected a member of the Building Trades Club.

The estimated cost of the building to be erected by Harry Chaffee, at the northeast corner 5th avenue and 16th street, is $350,000.

James Kennedy, a prominent metal roofer died on Monday, October 17. He was a member of the Building Trades Club, and for many years has been actively interested in the building trades of New York City.

Fred. Damm, house mover and contractor, of Willis avenue and 143d street, has successfully completed the removal of the block of flats on Willis avenue and 134th street, to adjoining lots. This important feat was illustrated in our issue of September 10, and was necessitated by the building of the new Willis Avenue Bridge.

Workmen have begun the removal of the sidewalk and balustrades on the south side of Mail street to make room for the long-projected iron shed to be built against the north walk of the Post-Office. The sidewalk on the northerly side of Mail street will be widened ten feet, and the roadway from Broadway to Park Row will be asphalted.

Mayor Van Wyck is quoted as saying recently: "I am committed to bridges across the East River. As soon as we possibly can do so, we intend to issue $9,000,000 in bonds for the construction of new school houses. This administration will attend to that duty first. Then we will complete the bridge now in process of construction. I want to see that bridge finished before I leave this office, and, furthermore, I want to see two more bridges started before the expiration of my term. But, above and beyond everything else, we must build school houses."

Hugh J. Lawler, of the firm of Smith & Lawler, No. 1,955 Park avenue, architectural ironworkers, who returned from Europe on October 8, was pleasantly surprised by his friends and employees on the evening of the same day. The employees assembled at 132d street and Park avenue, and, with the Judson Kilpatrick Fife and Drum Corps, marched to Mr. Lawler's residence, where they serenaded him, after which the committee invited him to take a seat in a carriage, when the march was taken up to Busch's Hall, 1st avenue and 120th street. There festivities opened with an address of welcome, which was answered very feelingly by Mr. Lawler, and were continued by singing and dancing until midnight, when a supper was served, at which speech-making and congratulations were in order. Among the guests were: Mr. and Mrs. George Bagge, Mr. and Mrs. Thomas Neville, Samuel Smith, Mr. and Mrs. Henry Frank, Mr. and Mrs. John Lawler, Mr. and Mrs. Edward Lawler, Mr. and Mrs. William Welch, Mr. and Mrs. Francis B. Powers, Mr. and Mrs. John Arnold, Mr. and Mrs. Francis J. Cogan, Mr. and Mrs. Robert Taylor, and over one hundred others. This event took Harlem by storm, and was voted the best parade and surprise seen in this vicinity in years.

MEETINGS FOR THE COMING WEEK.

Tin and Metal Roofers' Association, Building Trades Club, Thursday at 8 p. m.

Mason Arbitration Board, Building Trades Club, Thursday at 8 p. m.

TRADE NOTES.

THE DUFFY PLASTER BOARD.

Architects, builders and plasterers, who have not already done so should examine the "Duffy" Plaster Board for walls and ceilings. It is made of alternate layers of the best plaster and wool fibre felt; it is fireproof, and superior from every point of view to anything of its kind that has hitherto been placed upon the market. Unlike any other plaster board it has a smooth surface and is stiff; is furnished in stiff strong sheets 32x36 inches, that can be nailed to the beams or studding, and is at once ready for the plaster coat. No wetting or preparation of any kind is required, the natural suction of the dry felt surface, with the plaster beneath it, being amply sufficient to hold the coat. The theory that this dry felt fibre board would not hold the plaster has long ago beeen disproved. There are buildings where it has been up and plastered upon for years; in hundreds of buildings in this city where the Duffy Plaster Board has been used, it is claimed, it has never in a single instance failed to hold the plaster firmly securely and permanently. The approval of the Building Department of the use of this material is in itself a convincing proof of its merits. It is claimed, further, that by its use a great saving in time, material and money is effected, and besides this board will not warp, crack or shrink, and always gives universal satisfaction. Many of the best plasterers in the city have used it and pronounce upon it favorably. It has been long enough in use for its merits to be demonstrated, and the manufacturers point in support of their assertions to buildings throughout which their plaster boards have been in use for years in place of lath and plaster. Duffy's outside men on flue-pipe, sewer-pipe, wall coping, etc., cover daily all portions of the city and desire to call on architects, owners and plasterers with samples and talk "Duffy" Plaster Board; or those who desire can call on J. P. Duffy & Co., 4th avenue and 138th street, 136th, 137th, 138th and near 139th streets, New York City Telephone connections.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner, a/r stands for architect, m'n for mason, c'r for carpenter and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.
